THE AUSTRIAN TREATY.

THE completion of a treaty between England, France, and Austria has given greater intensity to the anxiety which has so long existed as to the course which Austria will take in reference to the war. From the first we have had but one opinion as to what that course must ultimately be; and that it would be dictated by circumstances and considerations over which Austria would have but little control. At the same time we are free to admit that there has been much ground for suspicion in the relations which have existed between Austria and Russia. The conduct of the latter Power in regard to the former has been extremely difficult to reconcile with the acts and avowed views of Austria. We have seen Austria contracting a treaty with Turkey, while Turkey was at war with Russia:—we have seen Austria openly and avowedly submitting the official notes addressed to her by Russia to the Cabinets of France and England for advice, if not for instructions, before she made a reply:—we have seen the Austrian Ministers in Paris and London hastening, upon the report of the fall of Sebastopol, to congratulate the respective Cabinets of England and France upon the event:—we have seen an Austrian army march into the Principalities, and a Russian army march out, in order that the former might occupy them on behalf of Turkey:—we have seen all these open acts of apparent adherence to the cause of the Western Powers and of hostility to Russia, without a cessation even of diplomatic relations between St Petersburg and Vienna. It was certainly no part of the duty of Austria to declare war against Russia, so long as she was permitted to do all that her exact position at the moment otherwise rendered it, in her own estimation, necessary, to protect her present and future interests; but it has been so extremely difficult to understand how Russia could see all these acts without declaring war, that politicians both in England and France have found it difficult to persuade themselves that a secret understanding did not exist between the Czar and the Emperor Joseph.

Nevertheless, we think that a review of the whole of the circumstances under which Austria and Russia were placed, in respect to the negotiations, not only between themselves but between the various Powers of Germany, will show that it was of the greatest consequence to both that an open rupture should not take place; in short, that neither of them were ready to assume the attitude which both must have foreseen as ultimately unavoidable. The conduct of the Eastern question had not only a European but a German phase. Prussia, the great rival of Austria for German supremacy, has made every effort during the present crisis to promote her objects, and to obtain a larger influence over the smaller German States. In this effort she has been well sustained by Russian diplomacy. It was obvious, from the moment that it became apparent that Prussia and Austria took different views upon the Eastern question, that whichever of those two Powers was able to gain so much adherence from the smaller States as to secure a majority in the Diet, must triumph; and that the other must submit either to follow in the same policy, or to be isolated from the Germanic Confederation. Russia well knew the full import of this struggle between the two great German Powers: she felt the influence which she had over Prussia, and she hoped to gain to her views not only Bavaria, but as many of the other smaller States as would secure for Prussia a majority in the Diet. If so, Russian councils would have directed the combined efforts of Germany, and Austria must have been content either to submit herself to such an alternative, or to resign all pretension as a member of the German Empire. As long as there was any chance of such a result to the negotiations and intrigues which have occupied the German Courts during the whole summer, it was well worth the while of Russia to put up with the acts of Austria, and quietly to pocket affronts which it would have been dangerous to resent. Austria too, on her part, was kept in check, as to the extent to which she was prepared to go, very much from the uncertainty which her acts might introduce into the settlement of these German questions.

We have, however, at length arrived at a time when the precise relative position of all parties has become better defined. In the German diplomatic game Austria has triumphed, and Prussia, with all the aid of Russia, has been foiled. Bavaria, as the leader of the smaller Conservative States, has declared for Austria, and her majority in the Diet is no longer doubtful. Prussia submits, shows a greater tendency in favour of the policy of Austria, and signs an additional article to the treaty lately made. Austria is left by these arrangements with great freedom of action, and with the certainty, under special circumstances, of the support of the forces of the Confederation. The difficulties of the past, and much of the doubt as to the future, have been thus cleared away. Of course the defeat of the Prussian policy has rendered that Power more than ever desirous to obtain an opening for a negotiation which might lead to peace; and we cannot be surprised that Austria, after having successfully finished so protracted a struggle with her powerful rival, should consent to afford a few weeks, in order that a last and final demand may be made upon Russia before actual hostilities are begun, however slight may be the chance of success.

It is at this juncture that Austria has concluded a treaty with the Western Powers. That the terms of the treaty are contingent we think only probable, because it would obviously be inconsistent to take an absolute and specific undertaking at the very moment that a summons, though the last one, is sent to Russia. But that it will prove contingent in any other sense we do not believe. The only danger which could be apprehended is that an attempt may be made to open a negociation upon the actual meaning and extent of the *four points*, with a view to gain time; but we believe that Austria is now so far disembarrassed of extraneous considerations and sees her interest so clearly to lie with the Western Powers, that no such attempt will prove successful; and that in a few weeks she will be as directly and openly committed to her final course as she is already implicated in it.

The best evidence which we can have as to the views which Russia and Austria entertain at the present moment of their respective positions before long, is the measures which they are both taking in order to meet coming events. Till now, neither party has been quite prepared for war. Now, and indeed for some time past, both have been making great preparations for defence and attack in those quarters where war will most directly and immediately affect them. Austria at this moment has upwards of 20,000 men engaged in throwing up earthworks and in making entrenchments on her frontiers which are most exposed to Russian attack. On the other hand, the flower of the Russian army, released by the stern season of the year from the [illegible] of the Baltic, are marching through Poland to the German [illegible]. The departure of our troops early in the spring for [illegible]

and the occupation of the Black Sea by our ships of war, pending the receipt of the last reply from Russia before the formal declaration of war, were not more ominous of the expectation of the English Cabinet as to the result of their last summons to the Czar than are the preparations at the present moment on the side of Austria and Russia.

We have never been amongst those who doubted the good faith of Austria in the professions which she has made with regard to the great question at issue. It has always appeared to us that those professions were too plainly in the line of her own imperative interests to leave it open to doubt that she could act in a contrary sense. At the same time, we have never failed to give due weight to the complicated and delicate difficulties by which she was surrounded, and from which time and tact could alone release her. But now, the necessity in which Austria is placed at a very early time to espouse the cause of the Western Powers is more palpable than ever. It is clear that no country in Europe has so much to gain by the success of the allied armies, or so much to lose by the success of Russia. And it is equally clear that while Austria has nothing to gain but everything to lose by avoiding hostilities with Russia, she would be exposed to irreparable losses and shame were she to act in any way which brought her in collision with the Western Powers.

There is another most significant circumstance which shows in what direction Austria is preparing to move. It will be recollected that at a very early period of the war the Emperor of the French declared that so long as Austrian and French troops cooperated in the East, the Italian States could not be made the scene of revolt. Now we learn from Paris that a treaty is on the eve of conclusion between Austria and France, by which, on certain stipulations, the latter undertakes to secure the Italian provinces. We may be quite certain that France would not enter into such an undertaking without a sufficient and satisfactory equivalent.

But one of the most important results of the new state of affairs in Germany is the already altered tone of the Court of Berlin. Prussia has been beaten in German diplomacy; she must now consent either to fall into the current with Austria, or withdraw from the Confederation and resign all her German influence. The latter is a course impossible to her: the former is, therefore, her only alternative, with whatever bad grace and reluctance she may adopt it. The events of the week have been most important.

NICHOLAS AND HIS APOLOGISTS.

We must say that the Peace Propagandists have done themselves little credit this year from first to last. They have been weak, they have been unjust, they have been sycophantic. From the mission to St Petersburg down to the letter of Mr Joseph Sturge, the immorality of the moralisers stands out in sunbeams. From January to December, in place of sympathising with the oppressed, they have embraced the cause of the oppressor; in place of pleading for right and justice, they have extenuated and excused crime; in place of denouncing the guilty Autocrat, they have fallen foul of those who would have checked his violence and rescued his victim. To the haughty Czar seated on his throne and receiving them with a bewildering condescension they spoke "with bated breath and whispering humbleness;" they addressed him as an injured man, whom they entreated rather to bear wrong and tolerate resistance than endeavour to right himself by the strong arm, when, if they had had the spirit of George Fox, or the proper feelings of Englishmen, they would have sought to awaken and alarm his conscience by language such as Nathan held to David, or Knox addressed to Mary Queen of Scots;—on their countrymen, striving to make head against his high-handed and unprovoked aggressions, they heaped every species of malignant misrepresentation and every epithet of unrelenting condemnation. We have not been accustomed to consider Mr Bright as too much given to fawning; but his language with regard to the great Czar reads painfully like that despicable thing; and we cannot doubt that ere now Nicholas, who knows how to distinguish and reward his friends, has not only translated the letter of the patriotic Member for Manchester, but has graced him with the decoration of the Order of the Holy Ghost. If he has not, he is a monster of ingratitude, and does not deserve the allegiance of the Apostles of Peace. For if any characteristic of that too celebrated document was revolting to Englishmen, and ought to have been gratifying to the Czar, it was the marked difference of the tone and language employed in dealing with the aggressor and his victims. Of the guilt of the former—where it was impossible even for Mr Bright to deny that he *had* sinned—he spoke in the gentlest terms, as of the failings of a favourite son;—"he could not indeed approve" of the invasion of the Principalities—it was a sort of venial indiscretion—an act of youthful impetuosity,—not perhaps defensible, but natural and excusable enough. But when he turned to his own countrymen and their allies, who merely sought to stay the course of this reckless violence and insatiable ambition, he could scarcely find words harsh enough to do justice to his sense of their brutal and blood-thirsty dispositions. The impatient heir-presumptive to the coveted dominions, who could not wait till the breath was out of "the sick man's" body, but must need pluck the pillow from his fainting head and poison his last cup of gruel, is treated with respectful tenderness—a tear is dropped upon his "error," and it is forgotten and blotted out for ever. But *we* have committed the sin for which there is no forgiveness. We have "resisted evil." And, worse than all, while our soldiers are savages, slaughtering those who never did them harm, the Russian troops, who murder our wounded as they lie helpless on the ground, who entreat our men for a draught of water to assuage their sufferings, and then basely shoot in the back the benefactors who have just relieved them, do it out of mere unconquerable nervousness—"in their frenzy or their terror"—and are to be pitied for their half-involuntary act! And lastly, we have Mr Joseph Sturge affirming that the war is the cause of the high price of wheat, and that the frightful carnage of our troops in the Crimea is the chastisement of God upon our warlike crimes.

And these men call themselves moralists, and dare to denounce upon us the vengeance of Heaven, because we have endeavoured to stand between the conception and the consummation of an enormous wrong,—because we have acted in the spirit of the Golden Rule,—because we have believed the maxim that

He who allows oppression shares the crime.

How is it that these self-constituted censors, like most of their tribe

Dant veniam corvis, vexant censemû Columbas?

How is it that they—preachers and professors of the moral law—should so utterly have forgotten *who first broke that law?* Granting that war is a horrible evil and a heinous sin—a thing to be avoided—a thing to be denounced,—where does the guilt lie—against whom ought the thunders of the honest prophet to be hurled? Against the man who struck the blow, or against the man who simply warded it off? Who creates a war? He who inflicts a wrong, or he who merely refuses to submit to it? No doubt war rouses bad passions, spills innocent blood, curtails the production and supply of food: no doubt there can be no war where there is no resistance: ought we, therefore, to let every robber, every conqueror, every pirate have his way? Why is it that Mr Bright and Mr Sturge persist in writing as if *we*, and not *Nicholas*, had caused the war? Why do they so carefully keep out of sight the fact that if we are wrong in incurring bloodshed by defending Turkey, the Czar must be tenfold more wrong in having provoked bloodshed by attacking Turkey? Why do they deal in those false weights and varying measures. Why do they reserve all their mercy for the criminal, and lavish all their indignation on the sufferer? Whence comes that strange perversion of senseand sympathy which has made the Apostles of Peace the tools and sycophants of the Great Disturber of the peace of Europe? What *do they design* by language which, if it means anything at all, means that we ought to have allowed the Emperor of Russia to have his way and to do his will, whatever that will and way may have been.

Do they know what sort of a man their pet lamb really is? Do they know that this war is his own special doing, and is nearly as much blamed in Russia as by ourselves—that among all classes, except the old Muscovite or Tory party, his ambition is hated and denounced with "curses not loud but deep?" Nesselrode, Woronzow, Orloff, all the party of enlightenment and civilisation, see his course with regret and shame. This was what Metternich meant when he told Lord Carlisle that the war would be decided not at St Petersburg but at Moscow. The truth is, that Alexander laboured to inoculate Russia with European ideas and European cultivation: Nicholas has reversed all this, and ever since his accession has thrown himself into the arms of the oriental, legitimist, backward party in the State; and has wasted in Circassian wars and external aggressions the years and the funds which his predecessor would have employed in canals and railroads. The conscripts who fight his battles are not as ours, volunteer defenders of their country: they are torn from their homes, and carried, *chained two and two like a gang of negro slaves*, to the depôt of the regiment whose ranks they are to fill up;—they are sent to shed their lives in an unholy and distasteful cause; they never see their families again for twenty years, even if they survive;—every drop of their blood or of our blood or of Turkish blood shed on the Danube or in the Crimea, *Nicholas has upon his head beyond dispute and without denial;* we have it on our consciences merely in as far as we refused the consummation of a gigantic iniquity which cowards and calculators would have induced us to connive at;—yet this is the man in whose behalf Mr Bright and Mr Sturge are not ashamed to soil their fame and their pen. In the name of morality and compassion they declaim against the war: in the name of a higher morality and a truer mercy we denounce that false statemanship and that hollow Christianity which would gloss over the atrocities of the mighty, and calumniate the efforts of the injured.

THE PROGRESS OF THE WAR.

Our news from Sebastopol is this week meagre. That no further attempts to relieve the place were made subsequent to the 5th and down to the 28th, confirms the opinion that the Russians made on the 5th their last desperate effort. General Liprandi

is reported to have retired from Balaklava; and a large train, consisting of several hundred waggons, laden with provisions and munitions for his troops, is said to have been surprised by snowstorms and annihilated. Sebastopol is provisioned for not more than fourteen or sixteen weeks, and the Russian relieving army altogether depends for its support upon the supplies sent from Southern Russia, conveyed in all descriptions of vehicles, and as much exposed to destruction in the Taurian steppes as the ships of the Allies in the Black Sea. In the meantime the Allies have continually received reinforcements, and, though our losses by the great storm of the 14th have been very great, our troops are in all respects better provided than the Russians. For the moment, as operations pause, our interest is excited by the Treaty entered into between Austria and the Allies, which pledges the former, it is understood, to take part in the war if the Czar does not submit. This important intelligence, too, is accompanied by information from Berlin that this movement on the part of Austria has the hearty concurrence of the Prussian Court, as it is sure to have the hearty concurrence of all the people of Germany. A telegraphic despatch from Berlin states that at a Council held on the 6th, by the King and his Ministers, the adhesion of Prussia to the Treaty was determined on. In consequence of this intelligence, a feeling more hopeful of peace generally begins to prevail, and the daily journals have begun in a moderate and conciliatory spirit to discuss the terms on which negotiations for peace may be based. If the Czar is disposed to yield to the overwhelming force of public opinion in Europe and our arms, it will not be creditable to diplomacy if it cannot find the means to put an end to a sanguinary contest, which, however necessary and glorious for our country, is still to be deeply deplored.

A note addressed by Count Nesselrode to Baron Budberg, dated Nov. 6th, has found its way into the press, and the desire of the Czar to obtain peace if he can on his own terms, is not the less visible from his cunning Minister professing in his name, a sincere desire to preserve Germany from the scourge of the war.

MEETING OF PARLIAMENT.

The Queen will open Parliament on Tuesday in person. The Address will be moved in the House of Lords by the Duke of Leeds, and seconded by the Earl of Abingdon; and in the House of Commons it will be moved by Henry Herbert, Esq., M.P. for the county of Kerry, and seconded by the Hon. Frederick Leveson Gower, M.P. for Stoke-upon-Trent.

THE TRADE OF TEN MONTHS.

The Trade Tables for the month ended November 5 and for the ten months of the year are now published, and the following items of much decreased imports will show the direction of trade and its comparative extent:—

Imports Decreased.

sheep's ...lbs	6,941,082...	10,182,235...	5,694,793...	70,336,0[illegible]8...	94,045,710...	82,888,618

From perusing this list, every one must be more struck with the greatly increased quantities generally imported in 1853 above 1852 than with the slight falling off in the quantities imported in 1854. With the exception of sheep, cocoa, currants, brandy, tallow, and tobacco, the imports of every one of these articles in the ten months, though less than in 1853, exceed those of 1852. This is the case even with flax and hemp, of which it was supposed we should be most in want. Tallow is the only article of which we can attribute a short supply to the war, and the diminished quantity imported in 1854 is in part due to the great increase in the import in 1853.

Even of wheat and flour, of which the war has been accused of raising the price, the supply has been greater in the ten months of 1854 than in the ten months of 1852, and this year we have in addition our own great harvest. In the month the imports of wheat are only one-sixth and of flour one-tenth of the quantity imported in the corresponding month of 1853 and 1852, from which it is plain that the low prices caused by the overstrained expectations of our own harvest preventing importation are the real causes of our comparative want of corn and high prices at present, and not the war. It will be noticed that the importation of potatoes, none of which come from countries with which we are at war, have been affected precisely like corn. Considering that the war has checked some enterprise and diminished in some cases employment and consumption, it may be doubted, however great its evils, whether it have in any great degree yet raised the price of food.

The King of Prussia, on the opening of the Prussian Legislature, lamented over the high price of provisions in Prussia. Prussia, however, is not at war, but Prussia suffers in common with all Europe from more than one bad harvest; though we have in 1854 obtained a good one; and that circumstance was the main cause why our imports of corn from Prussia and other countries have been less this year than the last. We looked for tolerably large supplies from thence in the autumn, but the high prices there and the comparative low prices in our markets put a stop to importation, as the tables demonstrate. Now the winter has impeded navigation, not the war, and we shall get no corn from the North till the spring. Other imports, such as fruits and possibly flax, seeds, tallow, and tobacco, may all have declined, like brandy, wheat, cotton, and wool, from those products having been less at the place of production; and we must at least wait for another season before we ascribe the falling off, even in the imports of articles in 1854 as compared to 1853 most affected by the war, to that circumstance. Cocoa, tobacco, cotton, are wholly unaffected by it, and they have declined more than flax, hemp, and tallow.

The important articles of which the imports have increased are these:—

Imports Increased.

In addition, the importations of all kinds of provisions, of manufactured silks, some spices, timber generally, &c., have increased. The importation of all the articles enumerated, with the single exception of rum, increased very much in 1853, and amongst the most important which have increased in 1854 are colonial products—coffee, sugar, rum, and the imports of them, in no wise affected by the war, except as it may increase the demand, will probably continue to increase. The highest priced of all the imports in proportion to the bulk—the precious metals—are not included in the list, and it is evident, as we are generally the creditors of other nations, that as the imports of other commodities fall off, while our exports continue, the precious metals will be imported in their stead. We are accordingly beginning now to retain them, though latterly we have merely imported to export them. We have carried on a great transit trade in gold and silver. We have carried on, too, a great transit trade in other articles. We exported of the following in the ten months:—

Wool, cotton .....cwts	1,182,560	998,770
sheeps' ..... lbs	7,823,176	19,110,468

Our supply of silk, therefore, taking the thrown and the raw together, is 1,440,619 lbs less than the quantity imported, but it will at the same time be upwards of 1,000,000 lbs greater than the supply of 1853. Our supply of cotton, also, will be 958,770 cwts less than imported, but the difference between the supply of 1853 and 1854 will be 223,790 cwts less than the difference of the imports in those years, this being the quantity less exported in 1854 than in 1853. In like manner, our supply of foreign wool, which, unlike either cotton or silk, is also produced at home, will be very different from the imports. The facts stand thus:—

	1853 lbs		1854 lbs
Imported in ten months	94,048,710	.....	82,888,618
Exported—Foreign and colonial.....	7,823,576	.....	19,110,468
Home growth	5,276,812	.....	10,540,684
Total exports	13,100,388	.....	29,651,152
Total supply	80,948,322	.....	53,237,466
Less supply 1854 than 1853.....	27,707,856	.....	...

With an increasing home demand, we presume, for woollens of all kinds, our soldiers requiring more, such facts are important. To have exported in ten months 29,651,172 lbs of wool, equal to more than one-third of all our imports, all of which has gone to the neighbouring Continent to be manufactured into cloth, indicates at least a very sharp competition, against which our manufactures must be on their guard, if they mean to retain an ascendancy over, or even an equality with, other manufacturers.

It must be noticed that, although the imports of many articles

have declined, the consumption of those paying duties has not generally fallen off. The consumption in the ten months of the principal articles, which have also increased in the month, stands thus:—

CONSUMPTION IN TEN MONTHS.

Articles.	1853	1854
Cocoa ..... lbs	3,483,428	3,781,859
Sugar ..... cwts	6,234,245	6,540,917
Tea ..... lbs	49,800,547	51,461,318
Tobacco ..... total lbs	24,662,746	25,12 ,532
Timber, deals, B. P. ..... loads	510,362	578,138
foreign	484,721	496,616
not sawn, B. P.	454,811	507,785
foreign	407,050	5 0,977

In some articles, as coffee, fruits, spirits, wine, here is a slight falling off, but it is too trifling to counterbalance the increase in other articles.

The declared value of our exports in the month and in the ten months compare as follows:—

DECLARED VALUE OF EXPORTS.

	In the Month. £		In Ten Months. £
1853	6,168,6 6	.....	73,155,755
1854	5,574,868	.....	73,302,066
Decrease	593,158	.....Increase	146,311

The decline in the month extends over every article except candles, coals, cotton manufactures, bottles, leather, saddlery, brass, lead, linseed oil, painters' materials, stockings, silk, twist, and soap. There is, therefore, a general falling off in our exports as compared to the last flourishing year, which every person is aware is chiefly the consequence of the condition of the United States and of Australia.

The returns of navigation show the following:—

TONNAGE ENTERED INWARDS.

	Month 1852	Month 1853	Month 1854	Ten Months 1852	Ten Months 1853	Ten Months 1854

Total.....	499,404	541,290	552,983	5,879,313	6,462,035	6,834,831
Total inw. & outw.....	1,189,025	1,257,909	1,143,046	11 4'4,775	13,008,355	13,595,872

An aggregate increase of 4.12 per cent. over the large increase of last year.

The total coasting trade cleared inwards and outwards was, in

1853	1854
22,120,9 7	22,597,333

An increase of about 2 per cent. This includes 59,345 foreign tonnage, which, subsequently to March 23d, took part in the coasting trade of the United Kingdom. The continuance of our prosperity thus exemplified, though it has neither been wholly uninterrupted nor free from disasters, contrasts favourably with the considerable revulsion and the numerous bankruptcies which have notoriously taken place in the United States. We are glad, however, to see, though we doubt whether the Americans duly appreciate the cause of their disasters,—viz., adopting European theories and following European practices, while their circumstances are not like those of Europe—that they are awakening to a sense of the degradation involved in commercial bankruptcy and wide-spread fraud.

The *Shipping List* of the 18th says, and the well-considered words are worthy of general attention,—

We are at length beginning to learn that railroads built on borrowed capital—especially railroads running through sections of country that have no local patronage to bestow—have a strong tendency to degenerate into mere street "bubbles;" we are also having our eyes opened to other schemes and ostentatious extravagancies which lead to individual corruption and dishonour—things which disturb credit and impair general confidence, as witness the Schuyler and other frauds which have transpired during the past six months. It is now beginning to dawn upon us, that we are not to be gainers, after all, by the European war, as some sanguine politico-economists predicted we would. Instead of being enriched by the dispute, the fact is we are getting poorer; and, we apprehend, it needs little logic to demonstrate that were peace restored in Europe to-day, the material interests of the United States would be benefited to a degreewe can never rationally look for in the event of a prolongation of hostilities—the belligerents being all, more or less, commercial nations. The world is differently constituted now from what it was during former wars. Nations now are so intimately connected by the ties of commerce and kindred, and that near neighbourhood which results from rapid steam communication, that what affects one, to a greater or less extent, must affect all. It is absurd to suppose that a great war, like that which the first-class commercial Powers of Europe are waging, is going to increase the wealth or general prosperity of any of the several belligerents, and, in our opinion, it is equally absurd to think that what is damaging them is destined to benefit us. Slight advantages of a temporary character, indeed, may now and then, fall to our own lot; but, in the long run, it will be found that peace on all hands is better for us than war.

Peace is no doubt infinitely better for all nations than war, but the trading world is not allowed to remain at peace. The international laws—the bond and rule of right for Sovereigns—are violated by the Czar, and, though more honoured and respected than any other Sovereign in Europe—though honoured and respected far beyond his deserts, he has rudely trampled under foot all the laws that Sovereigns in their intercourse respect. He is acting not only contrary to the opinion of Europe, he is acting contrary to the progress of society and humanity. He is doing injury to the Americans in injuring the trade of Europe. All the world, which now loves and desires peace, begins to hate him as a disturber, and against the universal hatred his granite walls and armed grenadiers cannot protect him.

Agriculture.

AGRICULTURAL NOTES.

SMITHFIELD CLUB CATTLE SHOW.

THE winter exhibition of the Smithfield Club has taken place during the past week at the usual place, the Baker Street Bazaar. The space occupied by the exhibition has been this year considerably enlarged, and many extra facilities were afforded to the numerous visitors who, as usual, flocked to the show-yard.

The show was on the whole a good one, but the animals were not so numerous as on some recent occasions. With very few exceptions all the stock came up to a high standard, and it is remarkable how nearly equal in quality and character the specimens of stock shown in the different classes continue to be. The truth is, there has been for some years a great improvement going on in all the principal breeds of cattle, sheep, and pigs throughout England, and all stock-keepers are aware that at such shows as those of the Smithfield Club and the Royal Agricultural Society it is quite useless to exhibit any but very good animals. The Marquis of Exeter's Shorthorn ox, which obtained the first prize of his class and the gold medal as the best ox of any class, was a very perfect animal, and quite justified the pre-eminence awarded to him Mr Towneley's prize cow was also a beautiful creature. The Devons were very neat and good specimens of the breed, but the show of Herefords was not remarkably good. Two or three Sussex cattle exhibited, sufficiently prove that the breed is worthy of more culture and attention than it seems of late years to have received. Amongst the sheep there were many pens of cross-breeds, chiefly Cotswold and Southdown, with some Leicester and Southdown, and very useful animals for the butcher they are. As a profitable sheep there is, perhaps, nothing better than the first cross between Cotswold and the West Country or Hampshire Down. Where no attempt is made to perpetuate such cross-breeds the farmer usually does well with such stock. Pigs were very fat and good.

In the corn market there has been little to observe on during the past week, save that there is a continuance of the downward tendency of prices. The general report for November of the *Mark Lane Express* says:—

That large additional breadths of land have, this season, been laid down for wheat, under the well-grounded impression that that crop will be more remunerative than spring corn. From several quarters we have received advises, stating that the yield of the new wheat is proving much smaller than had been anticipated at the close of harvest operations. It may be perfectly true that in some portions of the country the growth has not come up to the expectations of the growers; but no one can doubt for a moment that the total yield is considerably in excess of 1853, and *above* the average of most former years: and let us remark further, that the produce of red wheat on much of the light and most inferior soils has proved as heavy as upon the best cultivated lands. This is a most significant feature in the trade at this moment, and it is one calculated to have more than usual influence upon value. Not, be it understood, that we have any idea that prices will rule low; but the immense quantity of red wheat which continues to be received at our various markets indicates that there is no want of supply, whatever may be advanced to the contrary; and in order to show that abundance actually exists, we may notice some anxiety to realise at present rates, because there is a possibility of a decline in them.

This nearly accords with the views we have expressed on the subject of prices and the crops of last harvest. Barley and oats are said to be yielding well, and the potato crop enormous, though some disease is apparent. Markets for live stock of all kinds have been very active. With reference to the cattle trade the same authority says:—

Really prime animals, both beasts and sheep, have been unusually scarce, and commanded corresponding prices, the range in value having continued heavy. This is the case in nearly all parts of the United Kingdom, and is evidently the result of the inferior quality of the cattle-food produced in 1853. Stall-fed beasts and sheep have increased in weight very slowly, and we may safely calculate upon prime animals commanding high prices for several months. The supply of food is now much larger than for a considerable period, the turnip and carrot crops being full average ones; hence, stall-fed animals will now fare much better than they have done for some months past. Breeders are now realising very large profits; but those of the feeders are smaller than we have ever known them, owing to the great present deficiency in weight compared with the period at which many of the beasts and sheep were first purchased—in other words, stock has not fattened satisfactorily, notwithstanding that very few instances of disease have been noticed.

The want of moisture during a great part of last spring and summer will sufficiently account for the slow progress of stock feeding on the pastures.

SPIRIT OF THE TRADE CIRCULARS.

(*From Messrs Durant and Co.'s Circular.*)

London, Dec. 7, 1854.

The past month has been a period of extreme quiet in silk—until the last week without a transaction. This state of inactivity has at last been relieved by some orders for export, thus far confined to the lowest classes of silk; still it is a recommencement. The Challenger, too, has arrived with 1,376 bales new silk from China, so that we may now fairly calculate upon business. The deliveries show a marked diminution. In China silk some few parcels of low Taysaam have been sold for arrival, and also on the spot, at a slight concession. In Tsatlee prices remain without change. Chinese thrown silk has continued to droop, and one or two parcels have been sold at 15s. Bengal silk has shared the general inactivity. In Italian silk still nothing new. In Brutia and Persian silk no arrivals; several small parcels Persian silk of the lower qualities have been taken for export, and none are now obtainable at previous prices.

(From Messrs Witherby and Hanson's Circular.)

London, Dec. 7, 1854.

Currants—Since our report of the 23d ult., two cargoes of new fruit have been received here, making our total importation this season by seven ships about 1,150 tons, of which about 900 tons have already been sold. The London clearances for consumption are proceeding on a very large scale. They reached in all November 1,070 tons, against 290 tons in November, 1853, and 1,190 tons in November, 1852. The deliveries in bond in November were 180 tons, of which 50 tons went to our colonies, 40 to the United States, and 90 tons to the continent, making the total deliveries 1,250 tons. Several public sales have lately brought to light much of every description of currants, from 1852 white worth 21s to 22s, up to 1851 fine, some of which have been sold at 96s. On the whole, and particularly at the later sales, comparatively full prices were paid for all descriptions, and there is every prospect of the clearances this month being larger than those of December, 1853, which were only 495 tons. The article seems to be coming again into very general use, and the trade are thinly supplied. Raisins—Eight cargoes of Valentias have arrived since our report of the 23d ult., which make the total importation as compared with former years, to 6th December, 1854, by 33 ships, 92,840 boxes, 54,950 half-boxes, or 3,000 tons; 1853, by 42 ships, 104,864 boxes, 63,765 half-boxes, or 3,400 tons; 1852, by 57 ships, 144,333 boxes, 78,558 half-boxes, or 4,600 tons, showing a short importation of 400 tons, as compared with last year, and of 1,600 tons as compared with 1852. The market has been very unsettled of late, tender fruit selling from 40s to 42s; so that the price of fine has barely maintained its ground. Purchases of low blacks have continued to be made for export at various prices. Fine has been sold at 25s.

(From Messrs Powell and Co.'s Circular.)

London, Dec. 6, 1854.

After our market at Leadenhall last week, we had to inform our friends in our report of the 29th ultimo, that "the Government orders for boots and other accoutrements began to make a decided impression on the market—the stocks of shoe middlings were almost entirely cleared out—that shaved hides had been extensively purchased, and the stocks greatly reduced—that light English butts, English bellies and calf skins of the heavy and light weights were in good request. Since then, the demand for the goods, thus indicated, has continued, and their prices have somewhat advanced, but the improvement cannot yet be quoted as general. In some articles there is a slight reduction, although a symptom foretelling an advance is generally perceptible—that is, considerably diminished stocks. In raw goods the transactions have been rather large during the month, leaving the stocks on hand greatly reduced.

(From Messrs Trueman and Rouse's Circular.)

London, Dec. 1, 1854.

The imports of sugar show a still further excess over those of last year, the returns for the eleven months of 1853 and 1854 being respectively 324,100 and 407,900, a difference of 83,800 tons. But, on the other hand, the deliveries, although not progressing in the same ratio, still show a satisfactory increase, those for home consumption to the 30th November being 328,300 against 306,800 tons to the same period of 1853, and for export 17,200 tons against 12,400. This increase in the latter has chiefly taken place during the past month, and is in great measure attributable to the prohibition of the distillation from grain in France, alluded to in our last circular, having been followed by a similar measure in Belgium, which has transpired within the last day or two, and, being accompanied by the permission to distil from sugar in bond, has caused considerable inquiry here for low brown qualities, particularly of Brazil, for shipment to that quarter. The Scotch distillers have been large buyers of molasses, even at prices proportionately higher than those of low brown sugar, in consequence of the greater rapidity and ease with which they can produce the spirit from the former. It is worthy of remark that the total deliveries of sugar up to the present time considerably exceed the imports of the eleven months of 1853, so that unless a much greater supply had come forward this year, our stock would have been reduced to a lower point than has been known for many years; it is now 135,800 tons against 95,600 last year, but we expect at the close of the month to find a much closer approximation.

(From Messrs Sturge and Co.'s Circular.)

Birmingham, Dec. 6, 1854.

We believe that the crop of wheat in England was the largest in quantity, taking the heavy weight into account, that was ever grown. During the ensuing spring, we shall probably receive some quantity of wheat and flour from the United States; but France has prohibited export. Belgium is about to do the same, and it is expected that the prohibition in the Roman and Neapolitan States, which was to terminate at the end of this year, will be continued, although in those countries crops are good and prices comparatively moderate. It is also reported that Spain intends to adopt a similar course, but such a law in that country has never hitherto been religiously enforced. Present appearances do not indicate any further advance on wheat. The potato crop proves to be less injured by disease than in any year since it first became distinctive; and the fact that there were nearly one hundred thousand acres more land under potato cultivation in Ireland in 1854 than in 1853, as well as about the same extra quantity planted with wheat, will not be without its effect.

(From Messrs M'Nair, Greenhow, and Irving's Circular.)

Manchester, Dec. 5, 1854

Notwithstanding the market to-day evidenced no important features of practical amendment, a considerable improvement in feeling was observable. More general inquiry prevailed for both goods and yarns, and although the aggregate amount of transactions cannot but be reported as very limited, comparatively, it exceeded that of this day week. Prices generally are steadier and firmer, and both spinners and manufacturers showed less disposition to force sales; and for purchases made in low East India gold-end shirtings and jacconetts, an advance in price had to be conceded upon the rates paid during the last fourteen days.

(From Mr Wm. Mure's Circular.)

New Orleans, Nov. 13, 1854.

My last circular of the 30th ult., informed you that our cotton market closed dull, which induced factors to moderate their pretensions for the qualities under strictly middling to a small extent. This movement was followed by a good demand, resulting in sales of 28,500 bales during that week. Since then, prices remained unchanged, and 35,500 bales changed hands, making a total of 64,000 bales for the past fortnight. The sales of last week were made for Great Britain, with only a few small lots for France and the north, and consisted principally in grades from ordinary to low middling. The market closed with less firmness than was noticed during the week, owing to increased receipts, and I submit the following quotations:—Ordinary to good ordinary, 6½c to 7¼c equal to 3¾d to 4 7-16d; low middling to middling, 8c to 8¾c, equal to 4 9-16d to 5d; good middling, 9¼c to 9½c, equal to 5 3-16d to 5⅜d; middling fair, 9¾c to 10c, equal to 5½d to 5⅝d; fair, 10½c to 10¾c, equal to 5¾d 5⅞d, free on board, freight at ⅝d included. Freights—Some few ships are filling up for Liverpool at 5-16d, but this rate is now generally refused, the ruling figures being for said port ⅜d, and for Havre ⅜c. The tonnage in port unengaged is very large, and there is little chance of any improvement of consequence in the freight market for some time. Exchange—The amount of sterling bills offered considerably exceeds the demand, and rates are decidedly in favour of buyers, whilst francs are in good request, with but a limited amount for sale. I quote sterling from 108¾ to 109¼, and 9½ for bankers' bills; francs from 5.15f to 5.07½f per dol; New York, sight to 60 days' sight, 100¼ to 98 per cent. Of the Crop—The weather during the last fortnight has continued of a favourable character for picking operations, and I am glad to perceive that the quality of the late receipts of cotton, though not yet equal to former years, shows a marked improvement. The general estimates of crop continue to range from 2,900,000 to 3,100,000 bales. No frost has yet occurred strong enough to check vegetation in this latitude.

Foreign Correspondence.

From our Paris Correspondent.

Paris, Dec. 7, 1854.

The treaty which was signed at Vienna on the 2nd of December has nearly dispelled all the apprehensions which the present state of war had caused in France as well as in England. It is, indeed, a very important step of Austria, but it is far from putting aside all the difficulties to the restoration of peace. It is probable that the Czar would willingly consent to a treaty of peace if he could obtain conditions that he might consider honourable to himself. But there are two conditions which will be imposed on him by the Western Powers, and which he cannot agree to unless his armies are quite defeated and expelled from the Crimea. The first is the complete annihilation of his naval supremacy in the Black Sea, and the possession of the Crimea; and the other is the indemnifications which must be paid to England and France for the expenses of the war. It was announced, in a diplomatic letter from Vienna, that the Cabinets of London and Paris had agreed with Austria to make an important concession. According to that correspondence, Russia would remain in possession of the Crimea, but all the fortifications of Sebastopol would be destroyed. Russia could not maintain more than four vessels of war in the Black Sea; England and France on their side could not have in that sea more than two ships of war each; and the navigation of the Black Sea and the Danube would remain free.

The text of the treaty of Dec. 2 will not be known before it has been ratified; that is, towards the end of this month. But it is said that it is an offensive and defensive alliance, which will take its due effect on the 2nd of January, if Russia has not yielded before that date; and Austria will take the engagement of declaring war with Russia on the 2nd of March, if the Czar persevered till that date in his warlike policy.

If, however, we suppose that this treaty is more restricted in its engagement, it is nevertheless an important deed for France, as it delivers it from the necessity of establishing several camps on our frontiers, to guard them from attacks from Germany. The distrust against the Cabinet of Vienna had grown to such a degree, that measures had been already taken in the Ministry of War to have a camp formed from Lyons to Grenoble, and another towards Metz.

The Government have adjourned until January next any project of a new loan. It is determined to receive advances from the Bank for the sums which may be required, and they will be repaid with titles of the new loan.

The news from the seat of war is very scarce. The Allies had already received, on the 25th of November, large reinforcements, amounting to nearly 20,000 soldiers, and active preparations are making in France to send new reinforcements, amounting to 30,000. But as the present situation of the armies is now perfectly safe, in consequence of the works they have executed around their camp, orders have been sent to Toulon to wait for some days in order to avoid the tempests which continue to rage in the Black Sea.

According to the accounts of the English and French papers, the forces of the Russians in the Crimea exceeded 100,000 at the battle of Inkermann. These reports are certainly exaggerated. I saw a few days ago a family of Russian nobles, who came directly from Warsaw, and had obtained leave to traverse France on their way to Italy. They had seen Marshal Paskiewitsch before their departure, and they had been told that the aggregate forces of the division amounted only to 75,000, with the garrison of Sebastopol. A body of 25,000 soldiers had been marched from Poland at the end of October, and they could not arrive in the Crimea and join Prince Menschikoff's army before the 6th December, when they will complete the number of 100,000 which had been spoken of.

The French Government, following the example of Belgium, has prohibited the export of corn until the 31st of July, 1855. This mea-

sure has renewed the apprehensions about the extent of our resources in breadstuffs, and it will scarcely have a favourable influence upon the prices of wheat and flour.

The following are the variations of our securities from November 30th to Dec 6th:—

	f c		f c		f c
The 3 per Cents. improved from ...	70 60	to	73 20	and left off at	72 70
The 4½ per Cents. ...	94 80	—	96 0	—	95 75
Bank Shares ...	2980 0	—	3000 0	—	3000 0
Northern Shares ...	840 0	—	875 0	—	855 0
Eastern ...	770 0	—	800 0	—	785 0
— New Shares ...	620 0	—	645 0	—	635 0
Lyons ...	952 50	—	1005 0	—	985 0
Avignon ...	830 0	—	865 0	—	850 0
Orleans ...	1135 0	—	1185 0	—	1160 0
Rouen ...	940 0	—	960 0	—	960 0
Havre ...	517 50	—	530 0	—	525 0

Half-past Four.—Though the text of the treaty of Vienna had been received in Paris, and was considered as very favourable to the Western Powers, our securities were dull, and there were large realisations of profits. The Three per Cents. varied from 71f 25c to 71f ex div. The Four and a Half per Cents. from 95f 80c to 96f 25c. The Bank shares from 3,000f to 2,990f. The Northern shares from 857f 50c to 860f. Eastern shares from 792f 50c to 787f 50c; ditto (new shares) from 635f to 630c. Lyons from 990f to 985f. Orleans from 1,160f to 1,165f. Rouen from 955f to 960f. Havre from 522f 50c to 525f. Avignon from 860f to 855f.

News of the Week.

COURT AND ARISTOCRACY.

On Sunday, the Court attended divine service in the Castle.

His Royal Highness Prince Albert visited the Prize Cattle Show, in Baker-street, on Monday.

On Tuesday, the Queen had a dinner party.

The Queen and Prince Albert walked in the grounds adjoining the Castle on Wednesday.

The Queen and Prince walked in the Home Park on Thursday.

A deputation from the Board of Directors of the Australian Direct Steam Navigation Company via Panama, waited upon Sir George Grey on Wednesday at the Colonial-office, to solicit Her Majesty's Ministers to adopt measures, in concert with the Colonial Legislatures, for establishing an efficient postal communication with the Australian colonies.

The Lords of Her Majesty's Most Honourable Privy Council met on Wednesday morning, at the office of the Comptroller of the Exchequer, for the trial of Her Majesty's gold and silver coins set apart from every coinage between the 16th December, 1850, and the 30th June, 1854, in the pyx of the Mint.

It is stated that the address of the House of Commons, in reply to Her Majesty's speech from the throne, will be moved by Mr Henry Arthur Herbert, M.P. for Kerry. Lord Courtenay, Secretary to the Poor Law Board, will, in all probability, succeed the Right Hon. T. F. Kennedy as Commissioner of Woods and Forests. Mr. Hayward, Q.C., will, we have reason to believe, have the Secretaryship of the Poor Law Board, vacated by Lord Courtenay.

Several Cabinet Councils have been held this week.

METROPOLIS.

Health of London During the Week.—The weekly table shows a high rate of mortality in London. In the week that ended on Saturday 1,350 deaths were registered. In the ten corresponding weeks of the years 1844-53 the average number was 1,118, which, if raised in proportion to increase of population, becomes 1,230. The present return, therefore, discovers an excess of 120 above the estimated amount. The zymotic class of diseases was fatal last week to 298 persons, whilst the corrected average of corresponding weeks is 277. Diseases of the respiratory organs carried off 307 persons, the average being 262. Amongst particular diseases, scarlatina destroyed 90 lives, bronchitis 140, pneumonia 119, and phthisis 129. Last week the births of 806 boys and 804 girls, in all 1,610 children, were registered in London. In the nine corresponding weeks of the years 1845-53 the average number was 1,393. At the Royal Observatory, Greenwich, the mean reading of the barometer in the week was 29 deg. 519 in. The mean temperature of the week was 38 deg. 4 sec., which is 3 deg. 4 sec. below the average of the same week in 38 years. The mean dew-point temperature was 34 deg.; and the difference between that and the mean air temperature was 4 deg. 4 sec. The wind blew nearly all the week from the south-west. The amount of rain-fall was 0.48 in., which fell on Tuesday and two following days.

PROVINCES

Bedford Election.—Captain Stuart has been returned for this borough.

Representation of Coventry.—Sir Joseph Paxton has been returned without opposition.

The Western Fisheries.—The catches of fish on the Cornish coast, on which so large a portion of the population depend, have during the present season been exceedingly small. During the past week, however, the seine at St Ives have been tolerably successful. The drift boats have been taking from 1,000 to 18,000 fine pilchards, which have found a ready sale at 1s to 2s per 100 of six score in the Bristol market and for home consumption. At Pendeen a great quantity of fish, supposed to be pilchards, have been seen going down Channel. Fish have also been seen off Mullion and Gunwalloe, but the weather has been too rough to secure any.

The Birmingham Cattle and Poultry Show.—The sixth of the great annual exhibitions of stock and domestic poultry, which have excited so much interest in all parts of the United Kingdom, will open in Bingley hall, on Tuesday next. As regards the stock, we understand that the list of competitors in the various classes, will, as heretofore, include the names of breeders and feeders of the highest eminence.

The Strike of the Tyne Shipwrights.—Shields, Dec. 6.—The strike of the shipwrights in this river is fortunately about at an end. This morning Messrs W. and T. Smith, of St Peter's and North Shields, the largest shipbuilders in the north of England, set on their men; Messrs Laing will open their docks to-morrow; Messrs Morrison and Faurus have had their workmen employed about a week; and it is thought the docks will be opened in South Shields on Saturday. The men are going in for the old wages, 36s a week. Four yards have gone in in Sunderland at the same rates. This is for what they struck.

IRELAND.

Dublin Customs.—The Customs duties received at this port during the past week were 23,388*l*, against 19,215*l* in the corresponding week of last year being an increase of 4,173*l*. Paid on tea, 8,863*l*; muscovado sugar, 4,118*l*; refined ditto, 1,035*l*; coffee, 72*l*; wine, 2,833*l*; spirits, 1,016*l*, tobacco, 4,693*l*; timber, 346*l*; and miscellaneous, 410*l*. The total sum received since 10th of October is 145,622*l*; same time last year, 139,531*l*; increase, 6,091*l*.

Hibernian Bank.—On Wednesday a meeting of the proprietors of the Hibernian Banking Company was held, when a dividend at the rate of 6 per cent. per annum, free of income tax, was declared for the half-year ending the 1st of November.

FOREIGN AND COLONIAL.

FRANCE.

The Director-General of Customs and of indirect contributions has published a return of the production and consumption of beet-root sugar in France since the commencement of the present season till the end of October. It results from this table that the number of sugar manufactories in activity is 197, and that of manufactories not in work is 73. This is a diminution of 98 for the former and an increase of 43 for the latter as compared with the corresponding period of last year. 8,000,000 kilogrammes have been fabricated, which is one-half less than that of last year. The quantities given out for consumption derived directly from the manufactories amounts 2,204,000 kilogrammes; in October, 1853, it had attained 6,927,000 kilogrammes. On the other hand, the quantities sent from the entrepots amount this year to 9,880,000 kilogrammes, while last year they amounted to 6,692,000 kilogrammes. There remain in the manufactories 10,537,000 kilogrammes. This amount is smaller by 3,730,000 kilogrammes than that of last year. The quantity remaining in the entrepots exceeds 5,000,000 kilogrammes, while in October last year there was only 1,500,000 kilogrammes.

The official return of the price of wheat, as published by the *Moniteur*, does not present in its aggregate a very important augmentation. The average price for the whole of France during the three market days comprised between the end of October and the first fortnight of November is 24f 31c, being a rise of 1f 81c; 2nd section, at St Laurent and Grand-Lemps, 26f 84c; rise 80c. 3rd class, 1st section, Mulhausen and Strasburg, 30f 55c; rise, 2f 58c. 26f 58c the hectolitre; as it was previously 25f 72c, the advance is only 67c. But in examining in detail the prices of each of the regulating markets, very considerable differences are to be found—some having experienced a large advance, whilst others have maintained a downward tendency. The circle round Paris has remained with a fall; but what is strange is, that a large advance has taken place at Mulhausen and Strasburg, whilst in the neighbouring district of Metz and Verdun prices continued to go down during the same period.

The commercial position of Paris is unchanged. The manufacturers have nearly completed their stocks, and are not apprehensive of being surprised by too great a number of demands coming at the same moment on the approach of the new year. Very few orders now received from the United States, and the commercial accounts from New York of the 13th ult. are anything but reassuring. A few Paris and Lyons houses have forwarded of late large consignments of goods to Germany, particularly to Prussian firms trading with Russia. The cold beginning to be rigorously felt, the communication by sledges will become very active by land between Memel and St Petersburg. The Government, by prohibiting the export of corn until the 31st July, 1855, was anxious to check the rise in the price of grain. The decree, however, has not produced the desired effect. The rates, it is true, are less buoyant in Paris than in the preceding week, but in the departments they continue firm. The sale of cattle has been very active at all the markets, particularly those of Sceaux and Poissy. Prices have not increased, but they maintain themselves owing to the disinclination of the graziers to abate their pretensions.

An Imperial decree opens, from the budget of 1854, a new extraordinary credit of 25,700,000f, to meet the expenses of the war in the East, and particularly the cost of sending out two new divisions. A sum of 12,250,000f is appropriated to pay and support the troops, and the remainder to stores of various kinds.

AMERICA.

The commercial accounts from New York describe a renewed decline in the stock market, and an increase of pressure for money, rates equal to 24 per cent. per annum being paid for the discount of ordinary bills. Failures continue to be reported from most of the principal cities in the south as well as in the interior. Among them were those of David Stewart and Sons, wholesale grocers at Baltimore, for 100,000*l*, and the bank of Matthews, Finley, and Co., at New Orleans; while the list of similar events in the Western States is too long for recapitulation. The bank of Selden, Withers, and Co., the financial agents of the State of Virginia at Washington, was likewise in temporary embarrassment, owing to a heavy run upon it, but it was expected, with little delay, to meet all its liabilities. Notwithstanding these circumstances, the markets at New York for imported goods had shown some slight improvement, stocks being greatly reduced, in consequence of the arrivals for the past few months having been 50 per cent. below those of the corresponding periods of last year. Purchases of wheat continued to be made for shipment to England, but only to a moderate extent, prices being high. If the winter should be late, however, so as to leave the canals open longer than usual, a large supply would come forward, and, under any circumstances, the transportation by railway, not only from the Western States but from Canada, would be active. The rate of exchange had been affected by the pressure for money, inducing every one to delay remittances as long as possible.

THE BRAZILS AND RIVER PLATE.

A considerable improvement has taken place in business generally at Buenos Ayres, imports particularly sharing the reaction. Produce continued scarce and high, preventing any advance in exchange, which was quoted at 64s to 64s 3d. Freights were dull and declining, viz.:—Hides, 40s; dry hides, 80s; tallow, 35s; bales, 30s. Many vessels were leaving in ballast for other ports.

At Montevideo on the 15th of October exchange was quoted at 40d to 40½d. Freights were dull for want of produce from up river. The poverty of the internal resources of this province were daily becoming more apparent, and business in imports could hardly be in a more apathetic state. Peace, however, remained undisturbed under the Brazilian Protectorate, and the only remedy for commerce was patience, until the cattle increase sufficiently to allow the saladeros to work more actively, Some few had already begun, though on a small scale,

Commercial transactions at Rio Janeiro for the week previous to the departure of the mail had been less extensive in imports. In coffee there existed little disposition to effect other than indispensable purchases. The ruling prices for assortments were—for the Channel, 4 dols to 4 dols 300; and for the North of Europe, 4 dols 400 to 4 dols 450. The quantity shipped during the month of October was 175,245 bags. Sugar for export was quoted at 3 dols 100 to 3 dols 300 and at 2 dols 300 to 2 dols 600. Bullion—Spanish doubloons, 28 dols 650 to 28 dols 750; sovereigns, 8 dols 700 to 8 dols 800. Exchange on London, 27¾ to 28; on France, 345 to 348.

Bahia advices state that the demand for goods improved. Sugar was coming in very slowly, and the cane was beginning to suffer from drought. The port was quite healthy. In exchange unimportant transactions had taken place at 27¾. Freights—To the Channel, for orders, 52s 6d to 55s; Hamburg, 55s to 60s; Baltic, 60s to 65s; Liverpool, 40s to 45s; and to London, 50s to 55s. Spanish and patriot doubloons, 29 dols 200 to 29 dols 400; sovereigns, 8 dols 700 to 8 dols 900.

At Pernambuco the sugar crop was brought to a close, having yielded 50.963 tons. The new crop was generally admitted to be large, but supplies were coming in slowly. The new crop of cotton was abundant and the quality excellent. Exchange on London 27¾ to 28; on Paris, 350. Freights to Liverpool—For sugar, 30s; cotton, ¼d per lb; hides, 40s to the Channel, for orders, 70s.

CAPE OF GOOD HOPE.

We have advices from the Cape to the end of September. There had been no particular change in the state of trade. The *Eastern Province Herald* mentions that Sunday's River had been carefully sounded, with a view to make it a port of commerce. The result was favourable. The reports from the Smithfield gold diggings had become more favourable, and hopes were entertained that some one or other of the prospecting parties would eventually find a profitable field of the precious metal. The wealth of the colony in regard to copper had been satisfactorily tested, and the Namaqualand Copper Mining Company had been formed, with a capital of 200,000*l*, in shares of 10*l* each. The last annual report of the Cape Town Commercial Exchange shows that the value of the wool exported in 1853 was two-thirds of the declared value of all the produce shipped from the colony, the latter being 772,537*l*, and the former 501,134*l*; but the larger amount includes 36,552*l* of specie exported. The shipments of wool, therefore, exceeded in value those of 1852 by 97,715*l*. The total imports, amounted, in 1852, to 1,651,596*l*, against 1,861,808*l* in 1853; which include 250,855*l* of specie in 1852 and 31*l* in 1853.

BIRTHS.

On the 19th of October, at St John's, Newfoundland, the wife of His Excellency Governor Hamilton, of a daughter.

On the 3rd inst., at Seafield, Gorey, Ireland, Viscountess Stopford, of a daughter.

On the 30th ult., at Doneraile, the Viscountess Doneraile, of a daughter.

On the 2nd inst., in Queen's square, Bath, the Hon. Mrs R. Lambert Baynes, of a daughter.

MARRIAGES.

At Luxembourg, Thomas John Mazzinghi, Esq., Principal of the English Institution that city, A.M. of Trinity College, Cambridge, to Anna Marie Cesarine Therese eldest daughter of Matthieu Lambert Schrobligen, Chevalier du Lion Neerlandais.

On the 16th of September last, at Melbourne, Twisden Hodges, Esq, to Rosa Willson Nott, widow of the late Major-General Sir William Nott, G.C.B.

On the 2nd inst., by the British Consul, at Boulogne-sur-Mer, Henry M. Vernon, Esq., only son of the late Major Vernon, 36th Regt, and Military Resident of Paxo, to Anna Maria, youngest daughter of William Bell, Esq., late of H.M.'s Paymaster-General's Department, Whitehall.

On the 23rd ult., at Pau, Edward Ovens, Esq., to Sophie, youngest daughter of Monsle General de Gaja, and grand-daughter of Lord Robert Fitz-Gerald.

DEATHS

On the 5th ult., at the battle of Inkermann, Lieut.-Colonel Lionel Mackinnon Coldstream Guards, age 29, youngest son of W. A. Mackinnon, Esq, M.P.

On the 5th ult., killed at the battle of Inkermann, Captain Henry Thomas Butler, of H.M.'s 55th Regt., and Deputy-Assistant Adjutant-General, eldest son of Lieut-General the Hon. H. E. Butler, and brother of the late Capt. J. Armar Butler, who so distinguished himself at the siege of Silistria.

On the 4th inst., at Dublin, Major-General Charles O'Neill Prendergast, late of the Scots Fusilier Guards.

COMMERCIAL AND MISCELLANEOUS NEWS.

A commercial agency has been advertised to supply a regular steam communication twice a month between Constantinople and the fleet and camp at Balaklava. The screw steamer Lucerne is to be despatched from Liverpool for the purpose on the 20th instant.

A general meeting of the Peninsular and Oriental Steam Navigation Company was held on Wednesday, when a dividend for the year ending 30th September last was declared at the rate of 5 per cent., free of income tax, payable on the 28th instant, and a bonus of 1*l* per share, payable some time in January next; this latter distribution being the proceeds of certain shares, &c, forfeited to the company. The profits of the undertaking for the year have amounted to 69,348*l* net. After payment of the dividend and bonus, a surplus of 814*l* will remain to be carried forward to the next account. The capital of the company is to be increased by 1,000,000*l* by the creation of 20,000 shares of 50*l* each, to be divided amongst the present proprietors in the proportions of two new to three old shares; a deposit of 5*l* to be paid on or before the 1st of February next, subject to an allowance of interest at the rate of 5 per cent. per annum from that date up to the 31st of March, when an instalment of 5*l* will fall due, on payment of which the new shares will participate in the regular dividend.

Summary of coinage executed at the mint of the United States and its branches, from Jan. 1 to Sept. 30, 1854:—

Total since Jan. 1	170,052,737	165,000,325

The export of corn from the Roman States is prohibited.

At a meeting of the Grand Junction Canal Company, the dividend declared was 1½ per cent. for the half-year.

The Canadian Government purposes to alter the present tariff on imports, by reducing the duty on refined sugar to 2 dols 40c, on raw sugar to 1 dol 50c, and on molasses to 2d per gallon, and coffee to 1d per lb.

Intelligence has been received through Malta, that the English consul at Tunis had sent word that the prohibition to export corn from the regency of Tripoli had been revoked on the 31st of October.

The quantity of flour, wheat, corn, and barley left at tide water at New York during the second week in November, in the years 1853 and 1854, was as follows:—

	Flour. btls	Wheat. bush	Corn. bush	Barley. bush
1853	133,027	349,268	32,817	139,423
1854	40,177	93,395	181,817	127,713
Increase	...	...	149,00	...
Decrease	92,850	255,873	...	11,715

Literature.

THE IRISH INDUSTRIAL EXHIBITION OF 1853. *A Detailed Catalogue of its Contents, &c.* Edited by JOHN SPROULE, assisted by eminent Literary and Scientific Men. James M'Glashan, Upper Sackville street, Dublin. London: W. S. Orr and Co.

IF the Exhibition at Dublin were in proprtion as elegant as the volume describing its contents, its must have been a very finished production. The detailed catalogue gives critical dissertations, statistical information, elaborate descriptions of various arts and manufactures, as well as accounts of the objects in the Exhibition. It includes very properly also a memoir of Mr Dargan, with his portrait, and numerous illustrations on wood. The volume is creditable to Dublin as the Exhibition was; and both will help to make the ingenuity and great talents of the Irish better known to their fellow-countrymen. The volume is large as well as elegant; its contents, like those of the Exhibition, are multifarious; those who saw what it describes will like to have this record, and those who did not will like to learn from it what the Exhibition contained. No noteworthy particular is omitted. The volume is elegant as well as useful.

To Readers and Correspondents.

☞ Communications must be authenticated by the name of the writer.

We have several Communications in relation to the Stamp Act and other subjects which the want of space renders it needful to leave till next week.

The work of Mr Fortune on the Funds, recently revised, or Mr M'Culloch's Commercial Dictionary, would give our correspondent at Manchester the information he requires. The Dictionary would also supply him with all the information he wishes on Bills of Exchange.

"Self-reliance" stands over.

The Bankers' Gazette.

BANK RETURNS AND MONEY MARKET.

BANK OF ENGLAND.

(*From the Gazette.*)

AN ACCOUNT, *pursuant to the Act 7th and 8th Victoria, cap. 32, for the week ending on Saturday the 2nd day of Dec., 1854:—*

ISSUE DEPARTMENT

	L.		L.
Notes issued	27,244,460	Government debt	11,015,100
		Other Securities	2,984,900
		Gold coin and bullion	13,244,460
		Silver bullion	...
	27,244,460		27,244,460

Proprietors' capital	14,553,000	Government Securities, including Dead Weight Annuity	11,517,734
Rest	3,121,642	Other Securities	13,710,468
Public Deposits (including Exchequer, Savings Banks, Commissioners of National Debt, and Dividend Accounts)	4,994,893	Notes	7,647,670
Other Deposits	9,759,246	Gold and Silver Coin	625,563
Seven Day and other Bills	1,052,658		
	33,481,439		38,481,439

Dated the 7th Dec., 1854. M. MARSHALL, Chief Cashier.

THE OLD FORM.

The above Bank accounts would, if made out in the old form, present the following result:—

Liabilities.	L.	*Assets.*	L.
Circulation inc. Bank post bills	20,669,448	Securities	24,675,206
Public Deposits	4,994,893	Bullion	13,870,023
Other or private Deposits	9,759,246		
	35,423,587		38,545,229

The balance of assets above liabilities being 3,121,642, as stated in the above account under the head REST.

FRIDAY NIGHT.

The preceding accounts, compared with those of last week, exhibit—

A decrease of Circulation of	£125,297
An increase of Public Deposits of	212,503
An increase of Other Deposits of	43,937
A decrease of Securities of	83,643
An increase of Bullion of	160,229
A decrease of Rest of	54,577
An increase of Reserve of	293,414

The present accounts show a continued *decrease* of *circulation*, 125,297*l*; an *increase* of *public deposits*, 212,503*l*; an *increase* of *private deposits*, 43,937*l*; a *decrease* of *securities*, 83,643*l*, the decrease being made up of an increase of Government securities to the extent of 56,035*l*, and a decrease of private securities to the extent of 139,678*l*; an *increase* of *bullion*, 160,229*l*; a *decrease* of *rest*, 54,557*l*; and an *increase* of *reserve*, 293,414*l*. While the Bank is increasing its strength by an increase of bullion, an increase of reserve, and a diminution of circulation, the mercantile interest is making no demands on it, as is evident by the decrease of private securities. In the accounts last week, as well as in the present accounts, the private securities diminished, which contrasts very strikingly with the active demand for money for commercial purposes last year at this period.

Money continues in good demand, but there is no alteration in the terms of the money market.

The exchanges are very firm, but small parcels of gold continue to go abroad.

The arrivals of gold since our last have been from Australia, by four vessels, the Phœnicia, the Ocean Chief, the John Banks, and the Tamar, 224,618*l*; from the United States, two arrivals, together 165,000*l*; from Brazils, 5,200; and Portugal, 14,900*l* —making a total of 409,718*l*.

By the steamer Euxine, 108,042*l* has been exported, of which 51,556*l* is gold for Malta, Alexandria, and Hongkong; and 486*l* silver to Singapore, Hongkong, Canton, and Shanghai.

The silver brought by the Magdalena has come to hand, but no price has yet been fixed for it.

The funds were very firm to-day. Consols opened at 92¾ and closed at 93½ for money The market has been favourably influenced all the week by the statement made last Saturday in this journal as to the condition of the Exchequer, and by the report of Austria having signed a treaty with the two Western Powers; and to-day the information that Prussia had adhered to the course of Austria—that men in the Ministerial circles of Berlin profess not to have been so much surprised as gratified to find that Austria has engaged herself in this direction; the suspicions entertained of the want of good faith in Austria, and of her intention to move only for her own sole advantage, were the real reasons of the great backwardness Prussia has shown to go forward; and that a confidential communication of what was about to take place was the one great inducement to Prussia to accede to the fresh additional article, gave additional firmness. The settlement has passed off satisfactorily, and, though business was not extensive, more confident feelings prevail, and a further rise in Consols is looked for. After to-day, however, it must be remembered that they will be quoted ex dividend, which will show an apparent decline. From Paris, to-day, the prices came ex dividends, which led to its being mistakingly reported that the funds at Paris had fallen 1½ per cent. The following is our usual list of the prices of the principal stocks:—

CONSOLS.

	Money Lowest	Money Highest	Account Lowest	Account Highest	Exch. Bills.
Saturday	91¾	92¾	91¾	92¾	3s 6s pm
Monday	92½	92⅞	92½	92¾	3s 6s pm

The railway market not being so directly under the influence of political rumours or political events as the stock market, has scarcely kept pace with it. Prices, however, are good, though the market is not active. We subjoin our usual list:—

RAILWAYS.

* Formerly the Paris and Strasbourg.

The chief subject of interest is the treaty with Austria and the reported Prussian adhesion, and people begin to discuss the possibilities of peace, and balance the false sense of national honour and imperial dignity in the Czar, which will prevent him from yielding even to the voice of united Europe, against the defeats he has already suffered, and the greater defeats he is sure to suffer, if he continue to set its remonstrances and justice at defiance. Great satisfaction is generally expressed at the present

conduct of the German Powers, though it is tinged with regret and reproaches that they have not sooner taken this course, and so have prevented, as it is supposed they might, much social injury.

The New York money market of the 22d ult., is said by the *Shipping List* to

Still wear a gloomy aspect, and business generally is very much contracted in consequence. The financial crisis which has been so severely trying the Western banks, we are happy to infer, from the more cheerful tone of the press in that section, is somewhat abated. These failures have not, to any considerable extent, been accompanied by the suspension of commercial houses—the inference from which is, that there is, after all, less a scarcity of money than confidence. Cotton is beginning to go forward from southern ports more freely, thus furnishing a better supply of exchange, the rates for which are likely soon to settle down to a point which will not admit of specie shipment save at a loss. Our foreign imports continue to decline; retrenchment and contraction is the order of the day. Merchants are shortening credits, reducing expenses, and universally agreeing in the necessity that dictates a return from extravagance to economy. The last weekly statement of the city banks exhibits a gain of 821,944 dols on the specie item, and likewise a gain of 518 620 dols in the deposits. The loans exhibit a falling off of upwards of a half million, all of which is a true index to the cautious policy the banks are pursuing. We append a comparative statement of the leading aggregate of items:—

	Loans. dols.	Specie. dols.	Deposits. dols.
July 1	88,608,591	11,130,300	71,457,984
Oct. 7	91,380,525	10,630,517	70,383,610
Nov. 4	83,369,401	10,004,686	62,2.9,611
Nov. 11	82,717,052	10,472,538	61,662,387
Nov. 18	82,191,974	10,801,532	62,184,007

On the 25th it is said—

The balance in the Sub-treasury yesterday was 6,591,929 dols. The current rates for money are as follows:—Loans on call, 6 to 7 per cent.; prime 60 to 90 days' paper, 10 to 12 per cent.; prime 4 and 6 months' paper, 15 to 18 per cent.; railroad paper, 15 to 20 per cent. The failure of a well-known iron house in Philadelphia has enhanced materially the depression in mercantile circles there. In New York no new disasters of that character, except one or two small stock operators, have occurred, and there is rational hope for the belief that the crisis, in this direction, is nearly over. The Secretary of the Treasury announces the extension of his late offer for the public stock of the United States to the 31st December. The terms the same as under the circular which expired on the 20th inst.

SHIPS CARRYING LETTERS TO SAIL THIS MONTH.—For Algoa Bay, the Ealing Grove, from the London Docks, 10th; for Sydney, New South Wales, the Speedy, from the London Docks, 10th; for Geelong, the Northumberland, from the East India Docks, 25th; for Western Australia, the L. Amherst, from the London Docks 15th.

Mails Arrived.

LATEST DATES.

On 4th December, BRAZILS and RIVER PLATE, per Bahiana steamer, *via* Liverpool—Buenos Ayres, Oct. 1; Montevideo, 16; Rio de Janeiro, Nov. 1; Bahia, 6; Pernambuco, 9; Madeira, 24; Lisbon, 27.

On 4th December, AMERICA, per America steamer, *via* Liverpool—Montreal, Nov. 20; New York, 21; Boston, 22; Halifax, 24.

On 4th December, PENINSULAR, per Madrid steamer, *via* Southampton—Gibraltar, Nov. 24; Cadiz, 25; Lisbon, 29; Oporto, 30; Vigo, 30.

On 6th December, INDIA and CHINA, per Indus steamer, *via* Southampton—(Dates as received 28th inst., *via* Marseilles.)

On 7th December, AMERICA, per Atlantic steamer, *via* Liverpool—Montreal, Nov. 23; New York, 25.

On 7th December, CALIFORNIA, Oct. 31, *via* United States.

Mails will be Despatched

FROM LONDON.

On 9th December (evening), for BRAZILS and RIVER PLATE, per Pampero steamer, *via* Liverpool.

On 9th December (evening), for the MEDITERRANEAN, EGYPT, INDIA and CHINA, *via* Marseilles.

On 13th December (evening), for UNITED STATES, BRITISH NORTH AMERICA, *CALIFORNIA, and *HAVANA, per Atlantic steamer, *via* Liverpool.

On 18th December (morning), for VIGO, OPORTO, LISBON, CADIZ, and GIBRALTAR, per steamer, *via* Southampton.

* If addressed "*Via* United States."

There will not be any mail despatched on the 17th inst. to the West Indies.

Mails Due.

NOVEMBER 6.—Africa.
NOVEMBER 14.—Australia.
DECEMBER 12.—America.
DECEMBER 16.—Spain, Portugal, and Gibraltar.
DECEMBER 16.—West Indies.
DECEMBER 16.—Mexico and Havana.
DECEMBER 16.—Honduras and Nassau.
DECEMBER 16.—Western Coast of South America (Chili, Peru, &c.)
DECEMBER 16.—Brazils and River Plate.
DECEMBER 20.—Gibraltar, Malta, Greece, Ionian Islands, Syria, Egypt, and India.
DECEMBER 20.—China, Singapore, and Straits.

Imports of week ..... 97,286 qrs.

COMMERCIAL EPITOME.

FRIDAY EVENING.

The wheat market was dull to-day at Monday's nominal prices. There was, however, a demand for wheat, and much would have been sold would the holders have lowered their prices, but they would not. In the week the arrivals have been of home growth, 1,960 qrs; of foreign, 4,120 qrs; and of foreign flour, 3,730 sacks and 570 bbls. From Edinburgh we learn that some fine old wheat which had been kept for several years had been sold for 100s per qr; and flour, to the extent of 1,300 bbls, has been taken out of granary here after a repose of five years, to the advantage of the warehousemen and the loss of its several successive owners.

Though the supplies of barley are short, the market is paralysed by a reduction in the price of spirits checking the demand for distillation.

The supply of oats is large, 19,810 qrs from Ireland and 5,230 qrs foreign, and the market is 6d lower.

Norfolk flour was selling to-day at 52s to 59s per sack, and, according to Mr Sturge's circular, flour in some districts is so abundant, that it is selling at unremunerating prices.

The cargoes of foreign corn arrived off the coast since Friday were four of wheat, from Alexandria; one of maize, from St. Michael's; one ditto, from New York; one ditto, from Mazagan; and two cargoes of beans, from Alexandria. Five were sold previous to arrival, three since.

The neighbouring foreign corn markets are, like our own, quiet and tending downwards rather than otherwise. We understand, however, that considerable purchases have been made in the North of Europe on English account, and we see that shipments of flour in New York for England are again commencing. The Elbe is again clear of ice, and several ships from sea have reached Hamburg.

The sugar market has been languid this week, and closed heavily. To effect sales a small reduction in price was submitted to. Refined sugar is in demand, and the prices have improved.

The coffee market is dull, and some native Ceylon has been sold at a reduction of 6d.

The market for rice has been less active in the week and is flat to-day, but prices are not quoted lower.

Saltpetre has been in demand without much alteration in price.

The silk market, says Mr. Henry W. Eaton, writing on the 4th, "during the last month has been comparatively quiet; prices, however, have remained firm, and, within the last day or two, a decidedly improved inquiry has manifested itself, both for export and home consumption."

A very fair business has been transacted this week in the cotton market, making the total sales for the week 42,000 bales. Of these 38,000 are to spinners, 1,000 to speculators, and 3,000 bales to exporters. For all qualities excepting *fair* cotton, quotations are partially 1-16d per lb dearer; for this description, owing to recent heavy arrivals, the quotations are 1-16d per lb reduced for the week. The accounts from America received this week report a severe frost in several cotton districts, although the general opinion is, that it has occurred at too late a period to

cause any serious injury to the crop. The general estimate at present indulged is for a yield of 3,100,000 bales. The London cotton market continues inactive, with hardly any business to report.

In the oil and seeds market business is almost suspended, and there is now great disinclination to buy articles likely to be influenced by any approach to a settlement of the Eastern question, which many parties are sanguine enough to imagine recent political events may bring about. Linseed oil is in excess, and the price has further declined 20s per ton; price for immediate delivery 37*l*, and for delivery in January to April 39*l* per ton. Tallow has a downward tendency, the price of P.Y.C. being on the spot 64s 6d.

We learn with satisfaction, by the last accounts from San Francisco, that business had recovered from the shock of the Miegg's fraud, and was continuing to improve. We wish we could say the same of Australia, but the last arrivals are fuller of complaint than the previous ones of "the markets being in a deplorable condition, with no prospect of revival, with large quantities of merchandise forced to sale at auction, prices still declining, many heavy failures announced, and more expected; that credit is shaken and business stagnant." We cannot, however, suppose that a community so rich in the elements of wealth, and so disposed to be industrious, will long suffer from a plethora of goods. Speaking encouragingly, Messrs Lange and Ploos van Amstel say, in their report of Sept. 25:—

Besides the discovery of Sandy and Snowy Creek Diggings, are the Plenty, the Simson's Range, and the Dandenong Ranges; and at the old mines at Balaarat two immense nuggets have been found, one weighing 78 lbs, the other 100 lbs. The same party who found the former nugget, found 200 lbs weight of gold in smaller pieces, forming a value together of about 20,000*l*. The prolific yield of the gold miner, so long as besides wool we have no important articles for exportation, cannot but tend to the prosperity of the colony; for it is evident its wants are large and daily increasing, and gold or wool must be forthcoming to ship in exchange. It is confidently asserted by many competent to give an opinion, that the yield of gold is at present only in its infancy, and that it will be forthcoming another 200 years.

The following is a comparative statement of the imports of foreign dry goods at the port of New York for the week, as compared with the corresponding period of last year:—

Total			61	25	91

The languid feeling noticed in the market for some time past still continues, and prices have a downward inclination. The sales since our last have averaged about 500 bales daily, and for the week they probably aggregate 3,500 bales. We revise our quotations, with the remark, that, in the present unsettled state of the market, they should be considered, in the main, nominal. We have heard of sales at something below our prices, but the annexed quotations are believed to be a fair index of the market at the close. We quote:—

NEW YORK CLASSIFICATION.

There has been throughout the past week a little more disposition for business upon the part of the trade, and their purchases have been slightly augmented. The demand, however, continues to be freely met, and beyond a more even market we see no improvement; indeed, the better qualities have suffered some decline from the competition of new cotton. Longstapled cottons have been very dull, but are nominally without change. East India find a ready sale at last week's prices. The import this week amounts to 50,054 bales, of which 38,154 bales are American and 9,173 bales Surat. The sales to-day are 7,000 bales. The reported export amounted to 3,110 bales, consisting of 1,210 American, 60 Egyptian, and 1,840 Surat.

Our remarks upon the market last week have been fully borne out by the transactions that have since taken place, they being large, at a trifle advance upon the low rates that had previously been submitted to; and it is clear that producers have no very sanguine expectations of improvement, from the fact of some of them having sold freely to deliver up to the end of March next. The great bulk of the business done this week has been in yarn and cloth suitable for India, and some few, we believe, are operating in anticipation of a renewal of trade with China, induced by the low prices now ruling here, more, we think, than by the chance of the China trade opening. Printing cloths are in rather better request, and the demand for the heavier descriptions of goods suitable for the Levant is fully maintained. The downward tendency in yarn has been checked by a large business for India and our home manufacturers at low prices. The Germans have also been induced by low rates to operate to some extent. Altogether, we consider the tone of the market very healthy, as buyers, by their transactions, have clearly proved that prices had touched a safe point to operate at; and the free manner they have been met by producers show that their expectations of improvement are exceedingly moderate.

BRADFORD, Dec. 7.—Wool—There has been more lookers during the week, but the business doing is very limited, and prices without change in bright-haired wools. Other kinds continue in favour of the buyer. Noils and brokes are sought after, and with only a small quantity making. Yarns—There is somewhat more confidence in the yarn trade, arising from the very diminished production and the unwillingness of the spinners to produce yarns at the present prices. All seem satisfied that yarns have seen the lowest point, and any change must be upward to induce the machinery now idle to be put in motion. Pieces—The business doing is limited, and may be expected to continue so till the turn of the year. The stocks of finished goods held by the merchants are much less than for many years at this period, and of grey or undyed stock they hold none; whereas, they have in previous seasons bought largely for the spring. All is yet to do, and the stocks held by the manufacturers are unusually light, and but few making; and, with more than forty less spinners and manufacturers than at the close of last year, it is reasonable to expect a return of activity.

NOTTINGHAM, Dec. 7.—The usual anticipations in the lace trade lead us to expect the transaction of a fair business at this season; with an additional stimulus towards the end of January. In hosiery there is no alteration and no improvement to report.—*Notts Guardian.*

LEICESTER, Dec. 5.—The extensive Government orders for worsted and woollen shirts, wrought knit hose, gloves, and cravats, afford employment to large numbers of workmen, and keep the market bare of goods. The home trade demand continues steady, and equal to the average of former years. The spinners are generally working to order, and the prices of yarn are fully supported. The wool market is without change the supply coming out of the farmers' hands is very small. They are not inclined to sell under 1s per lb. Blanket wools and short wools are in request. The stocks of wool on hand are not considered large.

LEEDS, Dec. 5.—The demand for woollen cloth this morning in the cloth halls has been of a very meagre description, and very little has been sold. There is no perceptible change in prices, but the tone of the trade is scarcely so good as it was on Saturday.

CORN.

AMERICAN CORN AND FLOUR MARKETS.

NEW YORK, Nov. 25.—FLOUR AND MEAL.—The market for State and Western flour opened buoyant on Wednesday, with a moderate home trade demand and some export inquiry, at slightly improved prices. On Thursday the hardening tendency of the market continued, with a fair business; and yesterday, under the influence of the favourable accounts per Canada, holders advanced their pretensions very materially, but as buyers did not respond, sellers were obliged to abate their demands to about 12½c above the quotations current the previous day, at which the demand was light in the absence of the steamer's letters, and in consequence of the prevailing storm. The receipts have continued light, though rather in excess of the demand, and several thousand bbls have gone into store. The prospective receipts are slightly larger, a large number of canal boats having been detained by a break in the Erie Canal. Canada has been in fair request for export to Great Britain, and an advance of 25c to 27½c has been realised: sales, 2,100 bls, the market closing firm at 8.75 dols to 9 dols, in bond, and 9.75 dols duty paid. The sales of domestic aggregate 17,000 bbls, the market closing unsettled. Our quotations indicate an advance since Tuesday last of 12½c to 25c. We quote:—State, common brands, 8.37½ dols to 8.50 dols; State, straight brands, 8.50 dols to 8.61½ dols; State, favourite brands, 8.62½ dols to 8.75 dols; Western, mixed, 8.93¾ dols to 9 dols; Michigan and Indiana, straight brands, 9.12½ dols to 9.25 dols; Michigan, fancy brands, 9.25 dols to 9.37½ dols; Ohio, common to good brands, 9 dols to 9.12½ dols; Ohio, fancy brands, 9.12½ dols to 9.25 dols; Ohio, extra brands, 9.37½ dols to 10.75 dols; Michigan and Indiana, extra do., 9.50 dols to 10 dols; Genesee, fancy brands, 9 dols to 9.75 dols; Genesee, extra brands, 10.50 dols to 11.50 dols; Canada (in bond) 8.75 dols to 9 dols per barrel. Southern flour has been rather less active, but with less pressing for sale, an advance of 25c has been established, the market closing steady at 8.75 dols to 9.25 dols for mixed to straight brands; 9.75 dols to 10.37½ dols for fancy and extra, including Baltimore, Alexandria, Georgetown, Richmond, and Petersburg city. Rye flour is a shade firmer, with small sales at 7 dols to 7.50 dols for fine and for superfine. Buckwheat continues in limited supply, and the market is firm at 4 dols to 4.25 dols per 100 lbs. Corn meal is quiet: sales, 350 bbls at 4.50 dols to 4.62½ dols for Jersey, showing a slight improvement; and 4.75 dols to 4.87½ dols for Brandywine—the latter scarce. Export of wheat flour from 1st to 24th November, 1854, 35,687 bbls, against 297,486 bbls in 1853.

GRAIN.—The wheat market has slightly advanced since the receipt of the Canada's advices, and the demand is fair for home use, with some inquiry for export. The receipts continue light, and there is no considerable accumulation of supply. No material abatement in prices may be looked for until the stock is much augmented. We revise our quotations, which are believed to give a fair expression of the market at the close: the sales are 3,500 bushels inferior white Canada at 1.90 dol, in bond; (a large sale of 15,000 bushels was rumoured yesterday, but our efforts to trace it to a reliable source were unavailing); 3,700 fair white Genesee, for export, 2.35 dols, 30 days, adding interest; 2,900 prime white Michigan, for export, 2.28 dols; 2,000 good to prime white Pennsylvania, 2.15 dols to 2.30 dols—the latter an extreme price for a small parcel of choice; 2,900 inferior to prime white Southern, part 1.95 dol. The rye market is poorly supplied with stock, and with a good demand for distilling, prices have advanced about 1 to 2 cents; there are orders here from the Continent, but they are limited at prices which do not admit of execution: sales, 5,700 bushels at 1.35 dol to 1.38 dol Barley is scarcely so firm; sales, 3,500 fair four-rowed at 1.32½ dol. Nothing of importance doing in barley malt, and quotations are nominally the same. Corn has continued in active demand, mainly for export, but with a fair home trade inquiry, and prices have advanced 3 to 4 cents: the sales aggregate 175,000 bushels, the market closing firm at 93 to 94 cents for Western mixed. In addition to the above, 23,000 bushels yellow Pennsylvania, on shipboard in Philadelphia, brought 95 cents—freight, 5d. Oats continue active, and prices uniform. We note sales of 200 bbls State beans at 1.75 dol; and 2,000 bushels Canada peas, 1.43¾ dol, cash. Export, from 1st to 24th November:—Wheat, 13,723 bushels in 1854, against 1,299,713 bushels in 1853; corn, 679,000 bushels in 1854, against 107,183 bushels in 1853.

LONDON MARKETS.

STATE OF THE CORN TRADE FOR THE WEEK.

MARK LANE, FRIDAY MORNING.

There was a tolerably good supply of English wheat at Mark lane on Monday last: the best samples realised about the prices of the previous week, but secondary qualities were 2s per qr cheaper, and some quantity was left over unsold at the close, the condition not being good; whilst for foreign wheat the demand was limited, owing to the high rates asked by the importers for all fine qualities, particularly the fresh arrivals of old. The imports consisted of 217 qrs from Antwerp, 780 qrs from Dantzic, 530 qrs from Fehmorn, 600 qrs from Frederickstadt, 1,794 qrs from Hamburg, 9 qrs from Harlingen, 350 qrs from Holbeck, 1,832 qrs from Konigsberg, 850 qrs from Norkoping, 100 qrs from Rodwig, and 806 qrs from Stockholm, making a total of 7,068 qrs. The arrivals of flour coastwise were 1,410 sacks, from Scotland 50 sacks, by the Eastern Counties Railway 11,133 sacks, by the Great Northern 2,833 sacks, from foreign ports 476 sacks and 700 barrels: this article was in slow request, but country marks were not so pressingly offered, and prices were steady. The supplies of barley were liberal, 3,930 qrs from the coast, 22 qrs from Scotland, and 2,170 qrs from foreign ports: most sorts were 2s per qr cheaper, with a slow sale generally. There were only 10 qrs oats coastwise, 2,599 qrs from Scotland, 14,390 qrs from Ireland, and 10,024 qrs from foreign ports, making a total of 27,021 qrs: a fair sale was experienced, good old and fine new qualities supporting prices; but all other sorts were nearly 1s per qr cheaper, and in slow request: the arrivals now weekly are above the consumption of the metropolis, but that will increase materially at the meeting of Parliament: the stocks in granary are much reduced at this port, and there are few old Russians left, and no prospect at present of any for next season.

The imports at Liverpool on Tuesday were very large of Indian corn from the United States, but quite moderate of other articles of the trade. The transactions in wheat were only to a limited extent, fine old samples making former prices, but new were 1d to 2d per 70 lbs lower. Indian corn was not offered cheaper, notwithstanding the large import; many inquiries were made for it to ship to Ireland, but vessels were scarce, which prevented business from being entered into.

There were trifling imports at Hull, and only a small delivery of wheat from the farmers; the driest samples were quite as dear, other sorts receded 1s to 2s per qr in value: average, 73s 10d. Sales of old foreign wheat were effected for the interior at full prices.

There were very short arrivals of wheat at Leeds; business opened with languor, but improved before the close of the market, and nearly as much money was generally obtained: average, 74s 10d on 1,591 qrs.

There was a short delivery of wheat at Ipswich, and a good demand was experienced; red commanded 72s to 74s, and white 78s to 80s per qr: average, 73s 1d on 1,613 qrs.

The fresh arrivals of English grain at Mark lane on Wednesday were short, those of foreign moderate, but there was a liberal supply of Irish oats. There was a moderate demand for English wheat at Monday's prices. Barley met a slow sale, but was without any alteration in value. A moderate business was transacted in oats at quite as high rates for all good corn.

The Scotch markets have been tolerably steady during this week. At Edinburgh the deliveries of wheat from the farmers were limited. There was a fair demand for all good samples at 1s per qr advance on the choicest descriptions: average, 74s 8d on 817 qrs. The imports at Leith consisted of 1,642 qrs of wheat, 840 qrs barley, 646 qrs peas, and 660 sacks flour. There has been no change in the value of good foreign wheat; the importers held all fine samples at full prices, and one choice lot of white Rostock was reported to have been sold at 100s per qr, 63 lbs. The imports for Glasgow were moderate up the Clyde, as well as at Grangemouth. Fine old samples of wheat brought former rates; new were rather cheaper, and taken slowly.

At Birmingham on Thursday there was a small supply of wheat, which met a good sale at full prices: average, 73s 2d on 3,130 qrs.

There was a limited demand for wheat at Bristol; prices were 1s to 2s per qr lower generally: average, 72s 2d on 1,065 qrs.

The quantity of wheat brought forward at Newbury was tolerably good. Millers purchased slowly at barely former rates, the farmers being too firm for them.

The demand for wheat at Bishop's Stortford was steady, and previous rates were well maintained: average, 66s 11d on 478 qrs.

The weekly averages were 74s 4d on 109,071 qrs wheat; 35s 10d on 111,399 qrs barley; 29s on 16,733 qrs oats; 45s 3d on 461 qrs rye; 50s 2d on 4,557 qrs beans; and 49s 4d on 1,998 qrs peas.

At Mark lane on Friday the fresh arrivals of English grain were moderate; those of foreign have been unimportant, but there have been liberal supplies of Irish oats. The best qualities of English wheat met a steady demand at about the rates of Monday. Foreign wheat was held at full prices. The town millers took off a fair quantity of old at quite as much money. Flour was steady in value and demand. Malting barley realised former prices, with a fair sale for all good qualities. The business transacted in oats has been to a fair extent, and quite as much money was obtained for all useful qualities.

The London averages announced this day were:—

	Qrs.	s	d

COLONIAL AND FOREIGN PRODUCE MARKETS.

TRANSACTIONS OF THE WEEK.

(For Report of This Day's Markets, see "Postscript.")

MINCING LANE, FRIDAY MORNING.

SUGAR.—Low sugars continue firm at the advance of last week, while grocery descriptions have been active, showing a further partial decline of 6d, and the sales for export are not upon so large a scale. At the opening of the market on Tuesday a large business was done in West India at previous rates, but the demand since sub-sided. 309 hhds Barbadoes by auction about half found buyers at 31s 6d to 37s 6d; grainy, 31s 6d to 35s. 50 hhds good to fair crystallised Demerara, 38s 6d to 39s 6d per cwt. The clearances are very satisfactory for the time of year, being 4,359 tons during the week ending 2nd inst., and the stock of raw sugar in London at same date consisted of 85,681 tons, against 56,145 tons in 1853.

The crop of Pernambuco sugar will be good, and a much larger quantity than usual is to be clayed. Accounts from Havana confirm those received last week.

Mauritius.—On Tuesday 2,394 bags were sold, and the low qualities brought stiff rates: brown, 26s 6d to 30s; low heavy ditto and black, 24s 6d to 26s; yellow, 31s to 33s 6d per cwt. Business has also been done by private treaty.

Bengal.—Grocery descriptions have sold at 6d decline. 5,907 bags were chiefly disposed of as follows: white Benares, fair to good, 38s to 39s; grainy yellow, 36s 6d to 40s 6d; Mauritius kind, 32s to 34s 6d; brown Date, 30s. There are few parcels of low sugars offering.

Madras.—500 bags native brown were taken in at 26s 6d to 27s, a few lots finding buyers at 26s per cwt.

Siam.—815 bags brought 26s 6d to 33s 6d for brown and yellow.

Penang.—5,138 bags sold steadily: yellow, 30s 6d to 31s; low to fair brown, 27s 6d to 29s 6d.

Manilla.—About 4,000 bags unclayed brown have been sold by private contract at 27s 6d. 13,709 bags in public sale partly realised 28s for good brown unclayed, being 6d advance; washed, 26s to 26s 6d per cwt.

Foreign.—The public sales have gone off heavily. 1,938 hhds 461 barrels Porto Rico about half sold at easier rates for the lower qualities: fine grocery, 37s to 37s 6d; low soft greyish to good yellow, 30s to 36s. 303 hhds and tierces Cuba were taken in at 30s to 35s. Of 6,422 boxes Havana submitted a small portion only found buyers at 30s 6d to 37s for brown to fine yellow; florettes, 37s 6d to 39s. About 2,500 boxes have sold by private treaty, and a cargo of 1,980 boxes, No. 12, for delivery into London at 21s. 3,000 bags brown Pernambuco have realised 28s 3d. Also 600 cases Bahia: white, 32s to 32s 6d; brown, 29s 6d to 31s.

Refined.—The market is firm, with a steady demand for the lower class of goods at 43s. Other qualities are without any change to notice. No sales have been made in foreign loaves for consumption. The export demand has not improved in this market, sales being chiefly confined to English loaves. Crushed is quoted at 30s to 30s 6d. Dutch crushed remains without change.

MOLASSES.—There are few buyers at the present high rates demanded. Fine Antigua sold at 18s.

COFFEE.—A steady demand has prevailed during the week, chiefly from the home trade, and prices remain without material alteration. The sales of plantation have consisted of 764 casks 1,493 barrels and bags, which about two-thirds sold: fine ordinary pale to fine fine ordinary, 51s 6d to 57s; low middling to middling bold, 57s 6d to 61s; peas, 59s 6d to 64s. Native is dull, and good ordinary cannot be quoted above 45s. 200 bags old were sold for cash at 44s 6d. 28 casks Jamaica brought 48s to 52s for good to fine ordinary. 187 bales Mocha sold from 70s to 72s for fair clean garbled; a portion consisting of common Alexandria, 55s 6d to 57s. 400 bags Costa Rica sold from 50s to 60s for fine to fine fine ordinary.

COCOA.—The market is firm, with some inquiry for West India by the shippers. 400 bags Trinidad sold at rather higher rates: good to fine red, 41s to 44s; grey to middling red, 35s to 40s per cwt.

TEA.—The demand has been inactive since last Friday, yet prices remain without alteration. Of 16,461 pkgs submitted at public sale on Wednesday, 1,400 pkgs only sold, in consequence of the small quantity of teas adapted to the present requirements of the trade. Some low young hyson realised 9½d, and Canton gunpowder as low as 8½d. Common congou is almost nominal at 10d, so little business having transpired.

The stock in the United Kingdom on the 1st instant was 63,137,000 lbs, against 58,013,000 lbs last year at same time.

RUM is rather firmer, but prices do not show any material improvement. Proof W. I. has sold at 3s 5d to 3s 7d; E. I., 3s 2d to 3s 3d; good Demerara, 2s to 3s 2d per gallon. The Government have taken further large supplies this week, probably 150,000 to 160,000 gallons. English corn spirits are reduced to 10s 6d per gallon.

RICE.—The market has been quiet during this week. 500 bags good white Bengal were taken in at 16s, 15s 6d paid to arrive for good quality. 3,000 bags Arracan sold from 13s to 14s. There are very few transactions reported by private contract. A delivery of 1,042 tons for the week has reduced the stock to 6,157 tons, against 14,824 tons and 15,607 tons in 1853 and 1852.

SPICES.—192 cases nutmegs sold at last week's rates, from 2s 2d to 2s 5d for ordinary small to middling mixed; middling to good bold, 3s 6d to 3s 2d; fine, 3s 4d to 4s 9d. 79 cases mace went off steadily at full prices; ordinary to good, 2s 1d to 2s 7d; mouldy, 1s 8d to 2s 2d. 58 cases Penang cloves realised 10d to 11d for middling to good. White pepper has been in good demand; 731 bags nearly all sold at about previous rates, from 7½d to 9¾d for common mixed dingy to good, a portion held at 9½d. 4,007 bags black only partly sold at the late decline for common kinds: Penang, 4½d; sea-damaged do., first class, 3¾d to 4d; sound chiefly taken in at 4¼d to 4½d: Sumatra, 4½d to 4¾d. Of 1,267 bags Malabar a small portion of the sound only sold at 5d for good to short kind. Pimento is about ⅛d lower, and 460 bags partly realised 5½d for middling; the remainder taken in at 5¼d to 5⅜d per lb. 20 cases cassia lignea brought 130s to 131s per cwt for good second quality.

SALTPETRE.—The market has been quiet, but good to fine qualities are in demand at 28s to 29s. 4,721 bags Bengal were about one-third part disposed of at easier rates, from 23s 6d to 28s for 15⅞ to 7½ refraction; 4¾ to 3½ withdrawn at 30s.

IMPORTS and DELIVERIES of SALTPETRE, with the STOCK on hand 2nd DECEMBER.

	1854	1853	1852	1851
Imported	17,367	9,819	9,640	7,613 tons.
Delivered	10,232	11,098	9,453	7,724 —
Stock	9,941	2,471	3,594	2,521 —

NITRATE SODA is firm at 16s 9d to 17s per cwt.

COCHINEAL.—283 bags went at barely previous rates for some of the better qualities of Honduras silver: low small to good, 3s 2d to 3s 11d; blacks, 4s 4d to 4s 4d; low foxey and ordinary, 3s 11d. The stock on 1st December was 5,931 serons, against 6,944 last year. There were 2,378 serons, &c., landed in November, and 990 delivered for home use and export.

LAC DYE remains dull. 62 chests low of the mark C A V were sold at 2¾d to 3d per lb.

DYESTUFFS.—Cutch and Gambier are unaltered, and the market quiet. 352 bags of the former were bought in at 32s 6d to 33s for good. 29 bales Bengal safflower sold steadily from 2l to 3l 7s 6d for ordinary to middling. Tartars were bought in at high prices yesterday, and Oporto red argols at 48s to 50s per cwt. Cream tartar is dull.

STOCKS on 1st DECEMBER.

	1854	1853		1854	1853
Cutch	555	230 tons	Safflower	3,844	2,336 bale
Gambier	283	959 —	Turmeric	552	940 tons

DRUGS.—Scarcely any business has been done by private treaty since last week, and the demand for most articles continues limited. China musk was taken in at 40s per ounce. Camphor is dull at 5l 15s. Tartaric acid has been almost neglected: present quotation, 1s 6½d per lb. No change has taken place in East India gums.

The stock of camphor on 1st instant consisted of 2,249 chests, against 3,065 chests last year; of castor oil, 29,670 pkgs, against 46,400; and of opium only 87 chests, against 425 chests.

HIDES.—Yesterday the sales of East India comprised 113,866 hides, of which more than half sold steadily, better qualities being again rather easier.

INDIA RUBBER.—165 pkgs Para were bought in at 2s 2½d to 2s 8d for common bottle to sheets. The market is flat.

SHELLS.—114 pkgs Manilla mother-of-pearl partly sold at 5l 7s 6d. 54 cases East India tortoise were chiefly taken in at 20s to 23s 6d; two lots Manilla sold at 31s 6d to 33s per lb.

METALS continue dull, and prices are unsettled. Scotch pig iron is much firmer, closing yesterday at 69s for mixed numbers, cash. Welsh bars have sold at further reduced rates, and other descriptions are lower. East India tin is so dull that prices may be considered nominal: Banca, 113s to 114s; Straits, 112s. The stock is 628 tons less than at same time last year. British keeps steady. The market for spelter is quiet, and 25l the nominal value. The stock on 1st instant was 4,010 tons, against 10,620 tons last year. Tin plates remain quiet. Lead is easier to purchase, owing to the prohibition of shipments to the North of Europe.

OILS.—A further advance has been paid for sperm, viz., 120l per tun. All kinds of common fish remain steady, fine southern and pale seal selling at rather higher rates. The latter is worth 46l. There has been a limited demand for linseed oil during the week, and yesterday's prices closed 1s lower, viz., 37s on the spot, and 38s for delivery in the first three months of 1854. Rape is easier, foreign refined having sold at 55s, and below that price to arrive; brown, 53s to 54s. Palm and cocoa-nut present no new feature to remark. The stock of the latter amounts to 932 tons against 1,154 tons last year. Olive has fully supported the late advance: Gallipoli, 58l to 58l 10s per tun.

TURPENTINE.—Spirits are steady at last week's prices: American, 40s 6d; English, 42s 6d per cwt.

LINSEED is about 1s cheaper than on Friday last, with a moderate demand at that decline. Black Sea for distant arrival has sold at 69s to 70s; ditto on the spot, 68s per quarter.

HEMP.—The sound portion of 2,617 bales Manilla was withdrawn at 51l to 53l, the damaged finding buyers at 45l 15s to 46l. East India Sunn sold from 20l 5s to 21l 10s. 1,275 bales jute were partly sold at steady prices, from 17l to 20l 15s for ordinary to good bright quality. Clean Petersburg hemp is dull at the quotations. Some parcels out of condition in public sale went cheap.

TALLOW.—The market has continued dull, and prices closed fully 1s lower yesterday, viz, Petersburg new on the spot, 64s 6d to 64s 9d; all the year, 64s 6d; for arrival in the first three months of next, 64s 9d. Arrivals since the 1st inst. have been to a moderate extent, and the stock, as will be seen by annexed statement, has further increased.

PARTICULARS of TALLOW, Monday, December 4, 1854.

POSTSCRIPT. FRIDAY EVENING.

SUGAR closed without further alteration. 404 casks W. I. sold, making 2,332 for the week. Mauritius—530 bags were bought in at previous rates; Bengal—5,217 bags went at partial decline of 6d on Tuesday's rates for grainy kinds and white Benares; Date sugars sold from 32s to 32s 6d. Madras—5,581 bags sold cheaply, grocery kinds ranging from 30s to 33s 6d; grainy, 37s 6d to 38s 6d; white, 38s 6d to 41s; low Date kinds, 24s 6d to 33s 6d.

COFFEE.—282 cask 337 bags plantation Ceylon nearly all sold. A few lots fine went as high as 79s to 85s. 1,188 cases E. I. part sold; Nauidoobatum, 54s to 63s 6d. 659 cases Tellicherry were chiefly bought in at 54s to 59s; and 811 bags common Mysore were sold from 44s 6d to 53s. 189 bales and half-bales Mocha were chiefly taken in.

RICE.—274 bags Madras sold at 11s 6d to 12s per cwt for barley grain.

SALTPETRE met with more inquiry. 1,140 Bengal, in public sale, brought previous rates, besides some parcels of low Bombay at 21s 6d to 22s.

COCHINEAL.—152 bags, chiefly Honduras silver, brought extreme rates, from 3s 2d to 4s per lb.

LAC DYE.—98 chests were bought in at 7½d to 1s 6d.

SAFFLOWER.—67 bales Bengal sold at fully 5s advance, from 65s to 77s 6d per cwt.

INDIA RUBBER.—533 baskets 128 bags East India were taken in at 9½d per lb.

METALS.—Pig iron was 6d to 1s lower to-day.

TALLOW is flat at the previous quotations, and some cash parcels have sold at rather less. The sales went off at lower rates. 288 casks Australian beef half sold at 61s 9d to 62s 3d. 13 casks ditto sheep, 61s 3d to 64s 9d. Of 237 casks South American, 12 casks only sold at 65s 6d. 48 cases East India part sold at 54s to 61s per cwt. Imports during the week, 2,074 casks.

Town tallow was reduced 2s to-day.

OIL.—Linseed quoted 36s 9d per cwt on the spot.

ADDITIONAL NOTICES.

REFINED SUGAR.—The home market opened with higher prices, 6d for the middling and 1s advance for the lower qualities were paid: lumps, 43s; titlers, 44s to 44s 6d. Bustards remain steady. Treacle rather lower. To-day the market presents a heavy appearance; no alteration to note as respects prices. For export, a few sales 10 lb loaves at 32s; in 6 lb nothing ready, and refiners hold for higher prices. Dutch loaves remain without alteration. Crushed continues scarce, hardly any ready for immediate shipment, prices firm. Belgian loaves and crushed continue to maintain their position, and are quite beyond the reach of what few orders may be in hand.

GREEN FRUIT.—The market continues moderately supplied, and the demand keeps pace with the arrivals. Several cargoes of oranges have been received from the Azores, a portion of which sold at public sale by Keeling and Hunt were taken freely by the trade. The stock of lemons is light. Arrivals are required. A few barrels of good Almeria grapes have realised from 50s to 70s per barrel.

DRY FRUIT.—The clearances of currants and raisins continue on a very large scale, and an extensive consumption is going on throughout the country in all descriptions, at all kinds of prices, thus reducing the stock most opportunely. Valentias down to 42s best. Fine muscatels, sultanas, and figs are very scarce.

COLONIAL AND FOREIGN WOOL.—The market remained unaltered either as to business doing or prices;—the little done by private contract, however has been at the full as high as at the last public sales.

COTTON.—Last week the transactions were so limited, that no sales were reported this week; there has been rather an improvement in the demand, the market however dull, but prices remain unchanged. Sales of cotton wool from Dec. 1 to 7 inclusive:—60 bales Grenada, at 7¾d for good; 400 bales Surat, at 2¾d to 3d, and 3¾d for ordinary to fully fair; 200 bales Madras, at 3d for ordinary Tinnivelly.

FLAX still in request, and higher prices paid.

HEMP without alteration, but few sales making.

TOBACCO.—Sales in most instances have been limited, but prices remain firm and steady.

TIMBER.—The stocks of wood are unusually large, but the consumption proceeds steadily. Prices are recovering from the lowest point of depression, and there is an improved feeling in the trade. Though the importation has been unprecedentedly large hitherto in the year, there is a visible reduction in the latter months, and very little has to be expected before the season closes. Square timber of all sorts is gradually drawing upwards, as of this description the import and stock on hand is less than in 1853. The great excess is in the spruce and pine deals of America, which must continue to be an adverse market to all concerned with the burthen of high freight, for which no partial rally of prices here can compensate.

LEATHER AND HIDES.—The transactions of the week at Leadenhall were extensive at previous rates, excepting "shaved" hides and curried shoe hides, which made an advance over the preceding week of 1d per lb. The remaining stock of River Plate hides was sold this week at our quotations. A vessel with 1,200 has arrived thence, and more is expected.

METALS.—Copper is in good demand, and prices firm. Tin—English continues in request. Foreign has given way in price, owing to several lots being pressed on the market to meet prompts. Lead quiet. Spelter scarcely so much inquired for, although stocks are small, being only 4,000 tons. Manufactured iron is much lower in price, owing to makers being slack of orders. Scotch pigs have recovered slightly from their late depression, and we close buyers 67s 6d per ton.

TALLOW.—Official market letter published this evening.

PROVISIONS.

The bacon market showed some signs of improvement, but has relapsed into its former dull state. 62s obtained with difficulty for choice shippers (landed). Large stock of foreign butter: the best Friesland, 104s; inferior bad to sell. Nothing doing in Irish.

Comparative Statement of Stocks and Deliveries.

Bale Bacon	244

SMITHFIELD CATTLE MARKET.

MONDAY, Dec. 4.—Last week's imports of foreign stock into London amounted to 5,689 head. In the corresponding week in 1853 we received 5,642; in 1852, 3,824; in 1851, 6,593; in 1850, 5,704; in 1849, 4,511; in 1848, 5,155; and in 1847, 1,913 head.

The show of foreign stock in to-day's market was moderate, and greatly out of condition.

From our own grazing districts, as well as from Ireland and Scotland, the arrivals of beasts were on the increase, and, for the most part, of fair average weight. Although the attendance of butchers was tolerably good, the beef trade was in a sluggish state, and, in some instances, the quotations gave way 2d per 8 lbs. A few very superior Scots realised 5s 2d; but the top general figure for beef was 5s per 8 lbs.

The bullock arrivals from Lincolnshire and Leicestershire amounted to 2,100 shorthorns; from other parts of England, 300 of various breeds; from Ireland, 400 beasts, and from Scotland, 260 horned and polled Scots.

We were well supplied with sheep. Prime Downs and half-breds were in moderate request, at last week's currency. Long-woolled sheep moved off slowly, and the quotations were the turn in favour of buyers.

The supply of calves was but moderate. On the whole the veal trade ruled steady, at last week's prices.

SUPPLIES.

	Dec. 6, 1852.	Dec. 5, 1853.	Dec. 4, 1854.
Beasts	4,899	4,751	4,906
Sheep	23,540	24,090	26,080
Calves	247	91	165
Pigs	250	240	410

FRIDAY, Dec. 8.—The supplies were but moderate, and the trade ruled dull. Veal declined 4d per 8 lbs.

Per 8 lbs to sink the offal.

	s	d	s	d		s	d	s	d

Prime small	4	2	4	6	Large pork	3	0	3	8
Veal	3	6	4	10	Small pork	3	10	4	8

POTATO MARKETS.

THURSDAY, Dec. 7.—The imports of foreign potatoes are very limited, and the arrivals of home produce moderate. A steady business is being done, in some instances at enhanced prices. York Regents, from 110s to 115s; Kent and Essex ditto, 100s to 110s; Middlings, 70s to 80s; Blues, 95s to 100s; Cups, 90s to 100s per ton.

HAY MARKETS.—THURSDAY.

PORTMAN.—Old meadow hay, 90s to 95s; inferior ditto, 85s to 90s; old clover, 100s to 110s; inferior ditto, 90s to 100s; wheat straw, 28s to 33s per load of 36 trusses.

SMITHFIELD.—Fine upland meadow and rye grass hay, 90s to 92s; inferior ditto, 50s to 60s; superior clover, 105s to 108s; inferior ditto, 80s to 90s; straw, 26s to 32s per load of 36 trusses.

WHITECHAPEL.—There was a good supply at this market to-day, with a brisk demand. Hay, 80s to 82s; ditto, 36s to 69s; clover, 110s to 120s; ditto, 40s to 80s; straw, 20s to 28s per load.

HOP MARKETS.

BOROUGH, Monday, Dec. 4.—The trade continues steady, with a moderate demand for all hops of good quality, the currency for which is fully supported at the rates of last week. Yearlings, if choice, meet with a fair sale, at somewhat improved prices. FRIDAY, Dec. 8.—We have very few fine hops on offer, and the demand for them is steady at full prices. This week's imports are upwards of 2,000 bales.

COAL MARKETS.

MONDAY, Dec. 4.—Buddle's West Hartley 18s 9d—Carr's Hartley 18s 9d—Chester Main 19s 9d—Hasting's Hartley 18s 9d—Hartlepool West Hartley 18s 6d—Holywell 21s 6d—Howard's West Hartley Netherton 18s 9d—Longridge's West Hartley 19s—North Percy Hartley 18s—Ravensworth West Hartley 18s 9d—Tanfield Moor 17s 3d—Tanfield Moor Butes 17s 6d—Walker Primrose 17s 3d—Wylam 20s 3d—Eden Main 22s—Birchgrove Graigola 25s—Cowpen 19s—Derwentwater Hartley 19s—Squborwen Merthyr 25s. LIVERPOOL MARKETS.

WOOL. FRIDAY NIGHT.

(From our own Correspondent.)

There is more doing, and, although without much change in prices, a more cheerful tone seems to be gaining ground, and buyers operate with confidence, present prices being considered very low.

METALS.

(From our own Correspondent.)

The market for both Welsh and Staffordshire iron is in a very inactive state, and prices in consequence have declined considerably for all descriptions of manufactured iron. Scotch pig iron has been somewhat firmer within the last few days, and prices have slightly recovered from the extreme reduction that lately took place. Copper continues firm. Lead is a little lower, owing to the falling off of export demand. Tin-plates in rather better request.

COMMERCIAL TIMES

Weekly Price Current.

☞ *The prices in the following list are carefully revised every Friday afternoon, by an eminent house in each department.*

EPITOME OF RAILWAY NEWS.

PROPOSED NEW RAILWAYS IN ENGLAND.—Notices of intended application to Parliament have been given for the following proposed new railways—namely, in England Wales, from the Great Northern Railway at Barnet to the North London at Willesden; from the North Kent Railway at Lewisham to the South-Eastern Railway at Tonbridge, with branches to Eltham and Bromley; from the Great Western Railway at Southall to the Thames at Brentford; from the West London Railway to the West-end and Crystal Palace Railway; from Lewisham to Deptford; from Poplar to Westham; from Stewart's lane, Battersea, to Camberwell, Peckham, and Deptford; from Queenhithe stairs on an embankment along the Thames to Westminster bridge, with a branch at Whitehall, to the Westminster Terminus, near the Gray Coat Hospital; from Clapham to Norwood; from a coal pit to the Vale of Neath Railway; from the Great Western Railway to Abingdon; from Alton to Winchester; from Bristol to Portskewit, South Wales, crossing the Severn by a steam bridge; Carlisle to Silloth bay and docks; Holyhead Railway to new harbour of Holyhead; from Bishops Auckland to Brandon; from Pencader to Llanidloes, and from Newtown to Oswestry; from Disley Stanley to Hayfield; from Dorchester to Bideford; from Dudley to the Old Hill Furnaces; from the Midland Railway to Dursley; from Exeter to Exmouth; from the Shrewsbury and Chester Railway at Raubon to Llangollen; from Farnborough to Ightham; from Heanor to Loscoe; from the London and North-Western at Dunstable to the Great Northern at Welwyn; from Merton to Kingston; from Beckenham to Lewisham; from Lewisham to Dartford; from Pembridge to Brecon; from Morton to Kildale; from Newton to Oswestry; from Ripley to Pateley bridge; from Battersby to Morton; from the Manchester, Sheffield, and Lincolnshire Railway at Wardsend to the South Yorkshire Railway at Thorncliffe and Elsecar; from Glastonbury to Wells; from Poole to Blandford; from Bristol to docks and piers on the river Severn; from Liverpool to Garston; from the South Yorkshire Railway at Crowle to Bole; from Stourbridge to Netherton; from Essendine to Spalding; from the Reading and Reigate to the Berks and Hants Railway at Reading; from Gosport to Stokesbay; from Ipstone to Froghall; from Stockton to Stokesley; from Merthyr, Tydfil to Glyn Cynnon; from Kington to Llanfihangel Nantmelan: from Bridgend to Llangonoyd; from the South Devon Railway to Torquay; from the Warrington and Stockport Railway at Timperley to Salford and Manchester; from Farnborough to Tunbridge and Maidstone; from Hatfield to St Alban's; and from the Bristol and Exeter at Bleadon to a pier at Uphill Pill.

RAILWAY AND MINING SHARE MARKET.

LONDON.

MONDAY, Dec. 4.—A general recovery took place in the railway market to-day, and an improvement of from 10s to 15s per share was established. Great Western, Lancashire and Yorkshire, London and North-Western, Midland, North-Eastern, Scottish Central, and South-Eastern were principally influenced. The shares of the Australian land and banking companies were supported, and closed in some cases at better prices. There was greater activity in mining securities, with a tendency to improvement.

TUESDAY, Dec. 5.—The railway market was maintained with firmness, and a further slight advance occurred in some cases, but there was not great activity in business. Scarcely any change took place in the shares of the Australian land and banking companies, the operations having been limited. Crystal Palace closed 2⅞ to ¾, and mining descriptions continue to exhibit steadiness.

WEDNESDAY, Dec. 6.—The railway market was buoyant to-day, and an increased business was transacted at an advance of from 10s to 1*l* per share, the highest quotations being in nearly all cases maintained. Caledonian, Great Northern, Lancashire and Yorkshire, London and North-Western, South-Western, Midland, North-Eastern, and South-Eastern were principally operated in. There was greater firmness in the shares of the Australian land and banking companies, but the transactions were not extensive. Crystal Palace closed 2⅞ to ⅞. Mining descriptions were generally steady.

THURSDAY, Dec. 7.—Railway shares opened with increased firmness, and quotations were maintained with steadiness.

FRIDAY, Dec. 8.—The railway share market exhibits continued buoyancy, prices being quoted remarkably firm, and in most of the leading shares at an advance. There has been nothing doing in mines. Banks are rather weaker, but no material alteration.

The Economist's Railway and Mining Share List.

The highest prices of the day are given.

* The discriminating duties on Colonial and Foreign Sugar expired on July 5, 1854. The accounts, therefore, so far as they are subsequent to July 5, 1854, will exhibit Sugar of any origin Imported from the respective Territories.

† Since the passing of the Act 16 and 17 Vict., c. 106, the several growths of Wine have ceased to be specified in the entries at the Custom-house. The existing Tariff only requires the distinction "Red" and "White" Wine.

Just published, New and Cheaper Edition, price 1s; or by post, for 1s 6d,

THE SCIENCE OF LIFE; or, How to Live and What to Live for; with ample Rules for Diet, Regimen, and Self-management; together with instructions for securing health, longevity, and that sterling happiness only attainable through the judicious observance of a well-regulated course of life. By a PHYSICIAN.

Also, by the same Author, price 2s; by post, 2s 6d.

NERVOUS DEBILITY and CONSTITUTIONAL WEAKNESS, with Practical Observations on the Use of the Microscope in the Treatment of these Disorders.

This work, emanating from a qualified member of the medical profession, the result of many years' practical experience, is addressed to the numerous classes of persons who suffer from the various disorders acquired in early life. In its pages will be found the causes which lead to their occurrence, the symptoms which indicate their presence, and the means to be adopted for their removal.

London: Piper, Brothers, and Co., 23 Paternoster row; Hannay, 63 Oxford street; Mann, 39 Cornhill; and all booksellers.

ON NERVOUS AND GENERATIVE DISEASES.

New Edition, Illustrated with 45 Coloured Engravings and containing the Newly Discovered Preventive Lotion.

Just published, the 70th Thousand, price 2s 6d in a sealed envelope, or sent by the Author, post paid for 40 postage stamps,

A MEDICAL TREATISE ON THE Causes of Premature Decline in Man, with plain directions for perfect Restoration. A Medical Review of every form, cause, and cure of nervous debility, impotency, loss of mental and physical capacity, whether resulting from youthful abuse, the follies of maturity, the effects of climate or infection, &c., addressed to the sufferer in youth, manhood, and old age; with the Author's observations on marriage, its duties, and disqualifications; the prevention and cure of syphilis, spermatorrhœa, and other urino-genital diseases; as adopted by Deslandes, Lallemand, and Ricord, Surgeons to the Hospital Venerien, Paris. By J. L. CURTIS, Surgeon, 15 Albemarle street, Piccadilly, London.

With this new and enlarged edition of Manhood, will be given the Author's prescription of a disinfecting lotion for the prevention of all secret disorders.

At home for Consultation daily from 10 till 3, and 6 to 8.

REVIEWS OF THE WORK.

"We agree with the author that, so far from works o this class being objectionable in the hands of youth, or difficulties being opposed, every facility should be given to their circulation; and to strengthen our opinion we need but refer to the recent distressing events at our military and scholastic academies at Carshalton and Woolwich."—NAVAL AND MILITARY GAZETTE, 1st Feb., 1851.

"We feel no hesitation in saying, that there is no member of society by whom the book will not be found useful; whether such person hold the relation of a parent, a preceptor, or a clergyman."—SUN, Evening Paper.

"Fortunate for a country would it be did its youth put into practice the philanthropic and scientific maxims here laid down. One cause of matrimonial misery might they be banished from our land, and the race of the enervate be succeeded by a renewal of the hardy, vigorous spirits of the olden time."—CHRONICLE.

Published by the author: sold also by Sherwood, Piper, and Co., 23 Paternoster row; Hannay, 63 Oxford street; Mann, 39 Cornhill, London; Heywood, Oldham street, and Armstrong, 23 Bond street, Manchester; Howell, 6 Church street, Liverpool; Campbell, 136 Argyle street, Glasgow; Robinson, 11 Greenside street, Edinburgh; Berry and Co., 159 Great Britain street, Dublin; and by all booksellers and chemists in the United Kingdom.

BLAIR'S GOUT AND RHEUMATIC PILLS. Price 1s 1½d and 2s 9d per box.

Mr William Courtney, of Barton Stacey, Hants, says:—"I had resort to your Pills, and within two hours I was quite easy. The use of these Pills ought really to be known all over the world."

Among the many discoveries, none have conferred such a boon upon suffering humanity as that of BLAIR'S GOUT and RHEUMATIC PILLS; they require neither attention nor confinement, and are certain to prevent the disease attacking any vital part.

Sold by all Medicine Vendors.—Observe that "THOMAS PROUT, 229 Strand, London," is impressed upon the Government Stamp.

DOMESTIC LIBRARY.

Now ready, in Ornamental Cover, price One Shilling,

THE MODERN HOUSEWIFE'S RECEIPT BOOK: a Guide to all Matters connected with Household Economy.

By Mrs PULLAN.

Receipts tested by JOHN SAYER, Esq., Manchester. Medical and other portions of the work, by J. BAXTER LANGLEY, Surgeon, &c.

Just Published, price 1s., by the same Author.

A SELF-INSTRUCTING LATIN GRAMMAR.- Comprising all the Facts and Principles of the Accidence necessary to be understood by Students qualifying themselves for reading the Ancient Roman Authors; consisting of Twelve Progressive Lessons, in which Easy Sentences, Fables, &c., with Literal Translations, are introduced; also a TRANSLATOR'S GUIDE.

Also, by the same Author, price 1s.

HOW TO SPEAK AND WRITE FRENCH CORRECTLY, comprising Six Progressive Lessons, in which the difficulties of the French Language are elucidated by explicit Rules, and exemplified by useful Phrases.

NEW EDITION. Price 1s,

AIRD'S SELF-INSTRUCTING FRENCH GRAMMAR, consisting of Twelve Progressive Lessons, wherein the Parts of Speech are Exemplified in Conversational Phrases, Fables, Anecdotes, and Bons Mots, with Literal Translations, are also introduced.

"A fifth edition of this most useful little work has been just published. It has undergone many important alterations and additions, each calculated, to a still greater extent than has been achieved already, to simplify the study of the French language. Having already spoken of the merits of former editions, it remains for us only now to say that we are glad it has been so favourably received by the public. It is undoubtedly the best elementary work of the kind which has ever been published."—*Times.*

"This book is as useful in its nature as it is simple in its plan. All, indeed, that can be attained without the aid of a master is, by the use of this well-arranged little work, brought within the comprehension of the student."—*Argus.*

"This is a cheap and excellent little work, an to those desirous of acquiring a knowledge of the French language with expedition, correctness, and ease, it supplies a much-wanted desideratum, and that, too, at a minimum cost."—*Mona's Herald.*

"Simplicity is the chief recommendation of an elementary work. Mr. Aird, in writing his Grammar, has kept this in view for, of the many books that are weekly issued from the press purporting to facilitate the student's progress in attaining a knowledge of the French language, we have not perused one that is so free from useless rules, so clear, so comprehensive, as the valuable little work now before us. It consists of twelve progressive lessons, in which the parts of speech are exemplified by conversational phrases, with fables and anecdotes, translated literally, which are admirably calculated to give the learner an idea of the construction of the French language."—*New Monthly.*

"One of the best little elementary works that has ever come within our notice. The author begins with the alphabet and leads the pupil through the French language with the greatest ease. Short exercises are introduced to aid the pupil in forming sentences; and the fables, anecdotes, and bons mots, which are dispersed through the work, are calculated to relieve the mind of the pupil, and to familiarise him with the constructions and idioms of the French language."—*Reformers' Gazette.*

"Mr. Aird's object in publishing this grammar is to simplify to the English the study of the French language. He has not failed in his endeavour. He has begun at the beginning, and, instead of taking so much of the elementary truths as are already known, he commences with the pronunciation of the alphabet, and leads the student gently over the such ceeding stages. The grammar seems altogether well adapted for young beginners in the study of this polite language, and particularly for those who, from necessity or choice, are their own instructors."—*Leeds Times.*

"He who wishes to speak and write French correctly ought to possess this useful work. The various idioms and difficulties are elucidated by explicit rules, and exemplified by useful phrases.—*Bell's Life.*

"We have never seen an elementary work of this nature better worth its name. Without affecting novelty, the author attains simplicity and regularity of progress. We cordially recommend this little guide."—*The Atlas.*

"'The Student's Self-instructing French Grammar' is practical and comprehensive little elementary work, calculated to answer every purpose required in imparting the first rudiments of the French language. Its chief feature is the careful avoidance of long and useless rules, and numerous exceptions in pronunciation and construction, which too frequently embarass the beginner, and render that a task which would otherwise become an agreeable exercise. The short lessons with literal translations, are well adapted to assist the learner in acquiring the idiom of the language."—*Court Journal.*

London: Simpkin, Marshall, and Co., and all booksellers. Either of the above sent post free on receipt of eighteen postage stamps.

SAMUEL HEMMING'S PATENT much-approved PORTABLE BUILDING and ROOFING MANUFACTORY, removed from Bristol to Bow, near London, close to the Bow Railway Station A large variety of buildings always on view, churches, chapels, shooting boxes, lodges, bazaars, ornamental villas, dwelling houses, farm buildings, and fire-proof stores. Also, railway stations, trucks, and carriages made to any plan on the shortest notice.

DINNEFORD'S

PURE FLUID MAGNESIA has been for many years sanctioned by the most eminent of the Medical Profession, as an excellent remedy for acidities, heartburn, headache, gout, and indigestion. As a mild aperient it is admirably adapted for delicate females, particularly during pregnancy; and it prevents the food of infants from turning sour during digestion. Combined with the Acidulated Lemon Syrup, it forms an effervescing aperient draught which is highly agreeable and efficacious.

Prepared by DINNEFORD and CO., Dispensing Chemists (and General Agents for the Improved Horse Hair Gloves and Belts), 172 New Bond street, London, and sold by all respectable Chemists throughout the Empire

DEANE'S TWO-HOLE BLACK PENS which are unequalled for their durability and easy action, are adopted by the gentlemen of the Stock Exchange, and the principal bankers, merchants, and public companies of the city of London, besides several of her Majesty's judges, the most eminent counsel, and the reverend the clergy. Their cheapness and popularity have induced many unprincipled people to put forth imitations of the genuine article, which are equally useless to the purchaser, and disgraceful to the vendor. The public are therefore cautioned, and respectfully requested not to purchase any as DEANE'S GENUINE TWO-HOLE BLACK PENS, unless each pen is stamped,

"G. and J. Deane, London Bridge,"

and the box, which contains exactly twelve dozen, has thereon a variously coloured label, inscribed,

"G. and J. DEANE'S Two-Hole Black Pens, 46 King William street, London bridge."

TO NERVOUS SUFFERERS.—A retired Clergyman having been restored to health in a few days, after many years of great nervous suffering, is anxious to communicate to others the means of cure. He will, therefore, send (free), on receiving a stamped envelope, properly addressed, a copy of the prescriptions used.—Direct, Rev. E. Douglas, 18 Holland street, Brixton, London.

IT IS THE PECULIAR characteristic of

PARR'S LIFE PILLS

that they purify the system mildly and imperceptibly, so that there is no reaction or tendency to constipation afterwards, as is the case with the purgatives administered by many apothecaries. There are instances of persons with deceased livers and tender lungs who have passed years of misery, pain, and apprehension, but who, after taking PARR'S LIFE PILLS, have actually been made whole, the liver having resumed its proper functions. For bilious disorders, liver complaints, indigestions, costiveness, sick headache, depression of spirits, pains in the back, gravel, and lumbago, PARR'S LIFE PILLS will be found a safe and admirably remedy. Invalids should make an immediate trial of this excellent, long-tried, and successful medicine. Ask for PARR'S LIFE PILLS. Sold by E. Edwards, 67 St Paul's churchyard; Barclay and Sons, Farringdon street; Sutton and Co., Bow churchyard; Hannay and Co., 63, and Sanger, 150 Oxford street, London; and by all respectable chemists and medicine vendors in town or country. In boxes, price 1s 1½d, 2s 9d, and in family packets, 11s each.

RUPTURES.—BY ROYAL LETTERS PATENT.

WHITE'S MOC-MAIN LEVER TRUSS is allowed by upwards of 200 Medical Gentlemen to be the most effective invention in the curative treatment of HERNIA. The use of the steel spring, so often hurtful in its effects, is here avoided—a soft bandage being worn round the body; while the requisite resisting power is supplied by the MOC-MAIN PAD and PATENT LEVER, fitting with so much ease and closeness that it cannot be detected, and may be worn during sleep. A descriptive circular may be had, and the Truss (which cannot fail to fit) forwarded by post, on the circumference of the body two inches below the hips, being sent to the Manufacturer, Mr WHITE, 228 Piccadilly, London.

ELASTIC STOCKINGS, KNEE CAPS, &c., for VARICOSE VEINS, and all cases of WEAKNESS and SWELLING of the LEGS, SPRAINS, &c. They are porous, light of texture, and inexpensive, and are drawn on like an ordinary stocking. Price from 7s 6d to 16s each; postage 6d.

MANUFACTORY—228 Piccadilly, London.

FRAMPTON'S PILL OF HEALTH. "For upwards of nine years (writes Mr Thomas Prince, of Winchmore hall, Middlesex), I have experienced the efficacy of this excellent medicine, and I have the happiness of saying that I never had a better state of health, which I attribute to Frampton's pills. I beg further to add, that this medicine is in general use by my family, and we know of nothing to equal it."

For females these pills are truly excellent, removing all obstructions, the distressing headache so very prevalent with the sex, depression of spirits, dulness of sight, nervous affections, blotches, pimples, and sallowness of the skin, and gives a healthy juvenile bloom to the complexion. Sold by all medicine vendors, price 1s 1½d per box.

Observe that "THOMAS PROUT" is on the Government Stamp.

NERVOUS AFFECTIONS.

Just published, price 2s; post free, 2s 6d,

AN ESSAY ON SPERMATORRHŒA: its Nature and Treatment; with an Exposé of the Frauds that are practised by persons who advertise the speedy, safe, and effectual cure of Nervous Derangement. By a Member of the Royal College of Physicians, London.

London: Aylott and Co., 8 Paternoster row.

THE NERVO-ARTERIAL ESSENCE, discovered and prepared by Dr WM. BATCHELOUR, M.R.C.S.E., M.L.A.C., acts directly upon the nervo-arterial system. In nervous cases relief is almost always immediate and cure certain. Sold in stamped bottles, 4s 6d and 11s each, at the depot, 1½ West street, Finsbury circus; Watts, 17 Strand; Bell 11 Oxford street, Manchester. Prospectuses, with testimonials, at the above depot. The doctor may be consulted daily, from 9 to 1, at 12 Finsbury place south, and 15 Albion street, Hyde park square, after 4 p.m.

DURABILITY OF GUTTA PERCHA TUBING.—Many inquiries having been made as to the Durability of Gutta Percha Tubing, the Gutta Percha Company have pleasure in giving publicity to the following letter:—From Sir Raymond Jarvis, Bart., Ventnor, Isle of Wight. Second Testimonial.—"March, 10th, 1852.—In reply to your letter, received this morning, respecting the Gutta Percha Tubing for Pump Service, I can state, with much satisfaction, it answers perfectly. Many builders and other persons have lately examined it, and there is not the least apparent difference since the first laying down, now several years; and I am informed that it is to be adopted generally in the houses that are being erected here."

N.B. From this testimonial it will be seen that the Corrosive Water of the Isle of Wight has no effect on Gutta Percha Tubing.

THE GUTTA PERCHA COMPANY, Patentees, 18 Wharf road, City road, London.

PURIFY.—NOW IS THE TIME to cleanse the blood and system of all the vile and morbid humours of the body which have accumulated during the winter. In the spring the blood of most persons is thick and heavy with corruption, sluggish and full of humours, which frequently break out to the surface, producing pimples, scabs, blotches, and other vile disfigurements, and, if not removed, long periods of sickness ensue, and, perhaps, death. When the blood is impure the system is liable to every form of complaint, such as fevers, diarrhœas, cutaneous eruptions, indigestion, headache, torpor of the liver, kidneys, and spleen, bowel complaints, and a host of fatal diseases. OLD DR JACOB TOWNSEND'S AMERICAN SARSAPARILLA will at once obviate all these difficulties, and save often months of sickness and a large bill of expense, at the cost of a few shillings only. It is the safe, certain, and reliable medicine, as it effectually cleanses the system, purifies the blood, corrects the secretions, regulates the stomach and bowels, tones up the digestive organs, and imparts strength, vigour, and vitality to all the organs of the body. The public will bear in mind that there is none genuine unless it bears the name of Old Dr Jacob Townsend. Warehouse, 373 Strand, next to the entrance of Exeter hall. Half-pints 2s 6d; pints, 4s; small quarts, 4s 6d; large quarts 7s 6d; mammoths, holding two large quarts, 11s.—POMEROY ANDREWS, and CO., sole proprietors.

Just published, price 2s, by post 2s 6d,

DEBILITY AND IRRITABILITY induced by SPERMATORRHŒA; the Symptoms, Effects, and Rational Treatment

By T. H. YEOMAN, M.D.,

Physician to the General Post-office Letter Carriers' Provident Institution, &c.

TRIESEMAR.—Protected by Royal Letters Patent of England, and secured by the seals of the Ecole de Pharmacie de Paris, and the Imperial College of Medicine, Vienna.

TRIESEMAR, No. 1, is a remedy for Relaxation, Spermatorrhœa, and Exhaustion of the System.

TRIESEMAR, No. 2, effectually, in the short space of Three Days, completely and entirely eradicates all traces of those Disorders which Capivi and Cubebs have so long been thought an antidote for, to the ruin of the health of a vast portion of the population.

TRIESEMAR, No. 3, is the Great Continental Remedy for that class of Disorders, which unfortunately the English Physician treats with Mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR, No. 1, 2, and 3, are alike devoid of taste or smell, and of all nauseating qualities. They may lay on the toilet table without their use being suspected.

Sold in tin cases at 11s each, free by post 2s extra, divided into separate doses, as administered by Valpeau, Lallemand, Roux, &c., &c. To be had wholesale and retail in London of Johnson, 68 Cornhill; Hannay and Co., 63 Oxford street; and Sanger, 150 Oxford street; R. H. Ingham, druggist, Market street, Manchester; Priestley, chemist, Lord street, Liverpool; Winnall, bookseller, High street, Birmingham; and Powell, bookseller, 15 Westmoreland street, Dublin.

CHEAP, LIGHT, AND DURABLE ROOFING.

CROGGON'S PATENT ASPHALTE ROOFING FELT has been extensively used and pronounced efficient, and particularly applicable for warm climates.

1st. It is a non-conductor.

2nd. It is portable, being packed in rolls, and not liable to damage in carriage.

3rd. It effects a saving of half the timber usually required.

4th. It can easily be applied by any unpractised person.

5th. From its lightness, weighing only about 42 lbs to the square of 100 feet, the cost of carriage is small.

INODOROUS FELT, for damp walls and for damp floors, under carpets and floor cloths; also for lining iron houses, to equalise the temperature.

Price ONE PENNY PER SQUARE FOOT.

CROGGON and CO.'S PATENT FELTED SHEATHING for Covering Ships' Bottoms, &c., and

DRY HAIR FELT, for Covering Steam Boilers, Pipes, &c. preventing the radiation of Heat, and saving 25 per cent. of Fuel.

Samples, testimonials, and full instructions, on application to CROGGON and CO., 2 Dowgate hill, London.

DEAFNESS AND NOISES IN THE HEAD.—Institution for the Cure of Deafness, 9 Suffolk place, Pall Mall, London.—Instant and permanent restoration of hearing guaranteed, without the use of ear-trumpets, instruments, or causing one moment's inconvenience to the most aged or nervous sufferer. Dr HOGHTON'S new and extraordinary discovery, by one consultation enables deaf persons of either sex to hear immediately with perfect ease the lowest whisper, and magically removes all singing in the ears. Hospital and private testimonials, and certificates from the most eminent Physicians and Surgeons in England, in whose presence deaf persons have been cured, and many hundreds of private patients cured can be seen or referred to. Hours of consultation, 11 till 4 every day. FRANCIS ROBERT HOGHTON, Member of the London Royal College of Surgeons, May 2, 1845; Licentiate of the Apothecaries' Company, April 30, 1846. Just published, Self-cure of Deafness, for country patients; a step to empiricism, quackery, and exorbitant fees. Sent, on receipt of seven stamps, free. Examination free. 9 Suffolk place, Pall Mall.

DECAYED TEETH AND TOOTH ACHE.—Patronised by Her Majesty the Queen, and H.R.H. Prince Albert.—Mr HOWARD'S PATENT WHITE SUCCEDANEUM for filling decayed teeth, however large the cavity. It is placed in the tooth in a soft state, without any pressure or pain, and in a short time becomes as hard as the enamel, lasting many years. Sold by Savory, 220 Regent street; Sanger, 150, and Hannay, 63 Oxford street; Butler, 4 Cheapside; Johnston, 68 Cornhill; and all chemists and medicine vendors in the kingdom. Price 2s 6d, with full directions for use enclosed.

PINE'S RESPIRATORS FOR THE MILLION.—These improved Gauze-wire Respirators protect the lungs from any change of temperature, and purify the air. To be obtained, wholesale and retail, at his Acoustic Repository, 352 Strand, price 2s 6d, 3s 6d, 4s 6d each, by post 6d extra. To be obtained of all chemists and druggists throughout the United Kingdom.

TO PREVENT A COUGH, Take one of

DR. LOCOCK'S PULMONIC WAFERS

two or three times a day. They immediately allay all irritation and protect the lungs from the ill effects of Fogs and Cold Air.

THEY HAVE A PLEASANT TASTE.

Price 1s 1½d, 2s 9d, and 11s per box. Sold by all Medicine Vendors.

HAIR RESTORED IN A MONTH and its Falling off after illness, &c., stopped immediately, by WESTERTON'S INFALLIBLE RESTORATIVE, the efficacy of which for all diseases and irregularities in the growth of the Hair has been so long attested by its universal success. To ladies of delicate constitution, persons of studious habits, and all who prefer their own natural hair to the undistinguishable wig, this Restorative is invaluable, especially where it is early applied, and the treatment recommended carefully pursued. The preparation, suitably varied to meet every case, and accompanied by full directions and advice, will be forwarded (packed free from observation) to any address, on the receipt of a Post-office order for 10s 6d, payable to Mr FRANCIS WESTERTON, 68 Mortimer street, Cavendish square.

Price 1d, or 3d free by post (in stamps), Eighty-first Edition,

THE NATURAL REGENERATOR of the DIGESTIVE ORGANS, without medicine, inconvenience, or expense.

This treatise is adapted to the general reader, and contains numerous cases, practically illustrating the restoration of health to the most feeble, delicate, or shattered constitution.

For indigestion (dyspepsia), constipation, and diarrhœa, nervousness, biliousness, liver complaint, flatulency, distension, palpitation of the heart, nervous headache, deafness, noises in the head and ears, excruciating pains in almost every part of the body, chronic inflammation, cancer and ulceration of the stomach, irritation of the kidneys and bladder, gravel, stone, strictures, erysipelas, eruptions of the skin, impurities and poverty of the blood, scrofula, consumption, dropsy, rheumatism, gout, heartburn, nausea and sickness during pregnancy, after eating, or at sea, low spirits, spasms, cramps, epileptic fits, spleen, general debility, asthma, coughs, inquietude, sleeplessness, involuntary blushing, paralysis, tremours, dislike to society, unfitness for study, loss of memory, delusions, vertigo, blood to the head, exhaustion, melancholy, groundless fear, indecision, wretchedness, thoughts of self-destruction, and many other complaints.

STEAM TO NEW YORK.

—THE UNITED STATES MAIL STEAMERS — ATLANTIC, Captain WEST; PACIFIC, Captain NYE; BALTIC, Captain COMSTOCK—are appointed to sail fortnightly as under:—

From LIVERPOOL.

ATLANTIC ..... Saturday, Dec. 16.
BALTIC ..... Saturday, Dec. 30.
PACIFIC ..... Saturday, Jan. 13, 1855.

And every alternate Saturday, until further notice.

Rates of passage:—Chief cabin, 30 gs; second cabin, 20 gs, including provisions. No berth secured until the passage-money is paid. An experienced surgeon is attached to each ship. Freight charged on passengers' luggage exceeding half a ton measurement. Freight on goods from Liverpool, £6 per ton.—For freight or passage apply to John Munroe and Co., Paris; G. H. Draper and Co., Havre; Brown, Shipley, and Co., Liverpool; E. K. Collins, New York; or to Stephen Kennard and Co., 27 Austinfriars, London. The Steam Tug Company's boat Samson will leave the landing stage, George's pier head, at half-past 7 a.m., Dec. 16, with the passengers for the Atlantic.

In consequence of the discontinuance of the alternate weekly British Mail Steamer to New York, and with the view of maintaining for the public a weekly communication, the United States Steamers (Collins's Line) will, until further notice, sail from Liverpool on each alternate Saturday, instead of Wednesday as heretofore.

GUNPOWDER.—THE KAMES

GUNPOWDER COMPANY beg leave to announce that they have now an establishment in London, for the sale of their various descriptions of Powder, manufactured upon the most improved principles, and under highly-skilled superintendence, which may be obtained wholesale on application at their office, 147 Leadenhall street, deliverable from their magazine at Barking Creek, Liverpool, Swansea, or in the Clyde. They confidently recommend for Engineering and Mining purposes their Blasting Powder; and to Sportsmen their RIFLE, and their new and highly-esteemed CRYSTAL POWDER, which, for strength, cleanness, and prompt ignition, are unrivalled. Parties requiring supplies are recommended to be particular in ordering the Powder manufactured by the Kames Gunpowder Company.

London Agents—Laroche, Nainby, and Co.

CAUTION.—MESSRS ALLSOPP

and SONS find it necessary to caution the Public and especially Shippers of their Ales to the Colonies, against fraud committed by parties in selling spurious Ales for those of Messrs ALLSOPP and SONS.

Messrs ALLSOPP and SONS have felt compelled, by the extent to which this disgraceful practice has been carried, to proceed, in several cases, by obtaining Injunctions from the Court of Chancery; and have ultimately been driven to prosecute criminally, for the commission of this offence. They beg to call attention to the case of "The Queen v. Gray and Goslin," in which Lord Campbell sentenced the parties charged to "twelve months' imprisonment with hard labour."—Vide TIMES and MORNING ADVERTISER of the 18th May.

Messrs ALLSOPP and SONS will thank all persons having reason to doubt the genuineness of any article sold under their name, to send them the earliest information, in order that immediate steps may be taken for prosecuting the parties.

Messrs ALLSOPP and SONS will be happy to furnish the names of respectable houses, where a supply of their Ales may be depended on, as genuine from the Brewery.

Brewery, Burton-on-Trent.

CRIMEAN ARMY FUND.

COMMITTEE.

The Earl of Ellesmere, K.G., Chairman.

The Duke of Richmond, K.G.	The Hon. W. Cowper, M.P.
The Duke of Wellington	Sir William Fraser, Bart
The Marquis of Blandford, M.P.	Major-General Buckley
The Viscount Mandeville, M.P.	Major-General H. Bentinck
The Earl of Chesterfield	Thomas Baring, Esq, M.P.
The Earl of Shaftesbury	Alexander Barclay, Esq
The Earl of Malmesbury	C. J. Bevan, Esq
The Earl of Wilton	R. W. Cousens, Esq
The Viscount Somerton	C. C. Greville, Esq
The Lord Robt. Grosvenor, M.P.	St Leger Glyn, Esq
The Lord Blantyre	E. Nourse Harvey, Esq
The Baron Lionel de Rothschild, M.P.	Spencer de Horsey, Esq.
The Count P. E. de Strzelecki, C.B.	Capt. Hovenden
	Henry Kingscote, Esq
	H. Belward Ray, Esq
	H. Schenley, Esq
	H. L. Wigram, Esq

The Committee have been formed with a view of rendering some assistance to the British army whilst exposed to the many privations and hardships incidental to a winter campaign.

It is proposed to raise a fund for the purpose of forwarding to Balaklava a supply of such articles of provisions, warm clothing, &c., as may be considered most useful.

The Committee, through the liberality of the public, have already been enabled to despatch the Fairy yacht, placed at their disposal by W. Lyon, Esq. She is freighted with tobacco, tea, chocolate, leather, stationary, &c., for the use of the troops.

A steam vessel, capable of stowing 270 tons, has been engaged to sail as soon as she can be loaded.

The Earl of Ellesmere has also liberally offered his yacht to the Association.

The Committee appeal with confidence to the public to enable them to freight these vessels, and to take advantage of any future means of transport which they may be enabled to obtain.

The distribution of the cargoes sent out will be conducted by the Hon. A. Egerton, Alfred Denison, Esq., and T. Tower, Esq., who have most kindly placed their services at the disposal of the Association.

It is proposed that Messrs Egerton and Tower should sail in Lord Ellesmere's yacht.

Mr Denison will endeavour to reach Balaklava by a more direct route, with the view of making arrangements on the spot for the receipt and distribution of the cargoes.

The Committee cannot convey articles to individuals, nor deposit anything at Scutari.

It is earnestly requested that all contributions addressed to Hill street may be carriage paid, and have a clear invoice or catalogue attached, with the name of the donor.

The Committee cannot forward old linen or newspapers.

The following subscriptions have been received, and additional subscriptions will be published on Monday:—

The Committee have thankfully to acknowledge many valuable donations of clothing and provisions.

Many inquiries having been made as to the most desirable articles for transmission to the army, the following list has been framed under the best advice, and contributions of these goods will be gladly accepted and forwarded at the earliest opportunity:—Ale, porter, wine, spirits—bottled, and packed in cases not exceeding two dozen quarts, hams, tongues, bacon, cheese, and salt butter, portable soup, preserved meats, ditto milk, ditto vegetables, onion powder, tea (in bond), chocolate, coffee (ground and in essence), sugar, arrowroot, pearl barley, groats and oatmeal, salt, mustard, pepper, Cayenne pepper, spices, oil and vinegar, rice, ground rice, jelly (in bottles), lemon and lime juice, marmalades, preserves and jams, plum puddings (in cases), pickles, coffee roasters and mills, portable stoves, cooking apparatus, kettles and gridirons, cutlery—knives, forks, and scissors, portable lamps and lanterns, candles and night lights, soap, brushes, combs, tooth-brushes, stationery and foreign paper, brown paper, matting, rugs, carpets, Mackintosh articles, towels, pocket handkerchiefs, Welsh wigs, leather for shoes and soles, shoemakers' tools and materials, needles, thread, buttons, tape, twine, blanket and flannel, warm clothing of all sorts, beer taps, strong iron saucepans, and sacking for packages.

The London Railways have consented to carry parcels carriage free, provided the words "Crimean Army Fund" are legibly written on each parcel.

The Committee, being enabled to purchase all exciseable articles in bond, and free of duty, it is respectfully suggested that contributions of non-exciseable articles will be more acceptable.

Subscriptions are received by Messrs Herries, Farquhar and Co., 16 St. James's street, and Messrs Glyn, Mills, and Co., Lombard street. Subscriptions and contributions are also received at 28, Hill street, Berkeley square, where the Committee meet daily.

J. B. STANDISH HALY, Hon. Secretary.

December 4, 1854.

ELEGANT CARPETS OF SUPERIOR

quality, the newest designs, and most fashionable colouring, at 1s per yard under the usual price.—Persons furnishing are invited to inspect the immense STOCK of CABINET and UPHOLSTERY GOODS; Bedding and Bedsteads, fixed complete, in these extensive Galleries and Show Rooms, with the prices all marked in plain figures; the whole being manufactured by first-rate workmen and of the best materials. A written warranty is given.—Messrs DRUCE and Co., 68, 69, and 58 Baker street, Portman square.

SPECIAL NOTICE.—Until March 1, 1855, E. MOSES and SON's Establishments will be closed at 8 o'clock every evening, except Saturday, when they will be open until 11 o'clock.

CATTLE SHOW.—THIS ANNUAL

display is one of the sights for which London is celebrated—the productions of the country and the wonders of the world centre in the metropolis. Science, art, manufactures, and agriculture are represented in the City, and there their best samples are shown and sold.

The visitors to the Cattle Show never omit their visits to the Establishments of E. MOSES and SON, and their West-end Branch has an overwhelming share of patronage. E. MOSES and SON have the greatest pleasure in submitting their Establishments and their manufactures to the inspection of all visitors, and feel themselves honoured by a careful observation of their stock and commercial arrangements, well aware that their business requires only to be understood to be appreciated, and fully convinced that the prize productions of all countries are incorporated with their manufacture. It is as impossible to particularise the variety of styles, excellencies, and points of superiority in their manufactury, as it is by words to convey an adequate impression of the cheapness of their goods. It is only necessary to remark that E. MOSES and SON are the first in new inventions for attire, the most punctual in their business transactions for attire, and the most successful in securing to their patrons and the public the best articles at the most reasonable charges.

E. MOSES and SON have added to their Oxford street Branch a Hosiery Department, elaborately furnished with articles of the most elegant manufacture and of the most useful kind; there the same conveniences and advantages are afforded as are given at their City Establishment, and those uniform plans of business are pursued which have given such universal satisfaction.

At E. MOSES and SON's City Establishment a wholesale department of unlimited extent is kept, where every person may make the safest and most profitable investment either for the home or export trade.

CAUTION.—E. MOSES and SON regret having to guard the public against imposition, having learned that the untradesmanlike falsehood of "being connected with their establishment," or "its the same concern," has been resorted to in many instances, and for obvious reasons. They beg to state they have no connection with any other house in or out of London, except their own Establishments as follow:—

London City Establishment.—154, 155, 156, and 157 Minories, 83, 84, 85, and 86 Aldgate (opposite the church), all communicating.

London West End Branch.—506, 507, and 508 New Oxford street, 1, 2, and 3 Hart street, all communicating.

Bradford (Yorkshire) Branch.—19 and 20 Bridge street.

Sheffield Branch.—36 Fargate.

Colonial Wholesale Branch.—Melbourne, Australia.

Merchant Tailors, Clothiers, Hatters, Hosiers, Shirt Manufacturers, Boot and Shoe Makers, and General Outfitters for Ladies and Gentlemen.

IMPORTANT.—Should any article not give satisfaction, it will be exchanged if desired, or, if preferred, the money will be returned without hesitation. All goods are marked in plain figures the lowest price, from which no abatement can be made.

The Establishments are closed from sunset on Fridays till sunset on Saturdays, when business is resumed till 11 o'clock.

A New Book for Autumn and Winter, "The Commercial Cornucopiæ," containing full lists of prices, our system of self-measurement, &c., &c., may be had on application, or post-free.

PROPOSED REPEAL OF FREE TRADE CLAUSES IN THE SEVERAL ACTS OF THE DOCKS OF LONDON.

The clauses which the Dock Companies are about to apply to Parliament to repeal are contained in the West India Dock Act of 1799, 39th George 3, Cap. 69, Sec. 138, and in all subsequent Acts of Parliament for constructing Docks within the Port of London. The following is the clause as it stands in an amended West India Dock Act of 1831 viz.: 1st and 2nd William 4, Cap. 52. Sec. 83, and a like clause is to be found in the East India Dock Act, the London Dock Act, the St Katharine's Dock Act, and the Victoria Dock Act, viz.:—

"Provided always and it be enacted that all lighters and craft entering into the said Docks, Basins, Locks or Cuts, to discharge or receive ballast or goods, to or from on board of any ship or vessel lying therein, shall be exempt from the payment of any rates so long as such lighters or craft shall be bona-fide engaged in discharging or receiving such ballast or goods as aforesaid; and also all such ballast or goods, so discharged or received, shall be exempt from any rate or charge whatever."

The preamble of the Act of Parliament before referred to, (of 1799) recites that it was an Act "for rendering more commodious and for better regulating the Port of London." By it power was given to the West India Dock Company to make compulsory purchases of property, to obtain water for the docks from the public waterway of the Thames; and to participate in, *not to take away from*, the rights of legal quays. In a subsequent Act of 1831, of the same Company, the 1st and 2nd William 4th, cap. 52, Sec. 88, it is enacted "that the said docks, &c., shall be deemed to be situate within the Port of London; that the rights and privileges which belong to the said Port of London, shall extend to said docks &c.; and that all ships and vessels entering into, or loading or unloading in the said docks &c.; and all goods, wares, merchandise, and other things which shall be loaded or unloaded in, or shall pass through the same, and all owners, masters of ships and merchants resorting thereto, shall be subject to the several regulations and liable to the several duties to which they are subject or liable in the Port of London"—and further, in Sec. 89,—"That all goods, &c., which shall be landed or shipped upon or from the quays or wharfs, in or near the said docks, shall be subject and liable to such and the like tolls, duties, dues and customs, and to the like regulations respectively, as if the same were landed or shipped from the legal quays within the city of London, or as if the said intended quays or wharfs (in the docks) were situated within the said city."

In all the Dock Acts power is given to levy tonnage rates on ships or vessels using said docks. The rate on vessels discharged by the Dock Cmpanies varies according to the nature of the cargo as per table of rates, furnished to the captains or owners on the ships entering the docks, viz.:—

On goods housed by the Dock Companies from 6d. to 1s 9d. per ton,

On goods to be lightered for warehousing, at any other dock, legal quay, or wharf, at 1s. 3d. to 3s. 6d. per ton.

The above rates for discharging the cargo by the Dock Companies are in addition to the tonnage rate of 6d to 9d per ton for the vessel's use of the Dock.

A shipowner is bound, by bills of lading or charter parties to deliver the goods put on board his ship to the consignees in the Port of London, without charge, the necessary entries having been passed at the Custom House.

It is in the power of the master or owner of a vessel to determine whether she is to go to either of the docks or to the legal quays or sufferance wharves, unless a special clause is inserted in the bill of lading or charter party, directing where she is to discharge, it being held a sufficient compliance with the bill of landing (in the absence of such special clause) if the vessel discharges in the river or at any legal quay within the Port of London. In the great majority of cases the consignee of goods has no choice of the dock or quay where a vessel shall go to discharge her cargo.

It follows therefore by the law and custom of the Port of London, as they now stand, that a consignee of goods has the right to get them from the ship's side, free of any charge whatever.

The Legislature, in order to secure free intercourse between the different docks and quays, constituting the Port of London, has wisely provided in all the existing Dock Acts, that lighters and lightered goods, as well as ballast shall be received and delivered in and from ships lying in the several docks without payment of dock charges.

But the effect of the repeal of the clause exempting lighters and craft from the payment of dock rates would be to create a monopoly in favour of the dock establishments—although the consignee of goods may desire for various reasons to land and warehouse them at, or ship them from, any other dock, quay or wharf, in the Port of London, the Dock Companies would have power to interfere and to say, you shall not do this unless you pay us a charge, which would be tantamount to a prohibition against removing goods from, or bringing them to, the docks by lighters.

The competition which has sprung up between the different Dock Companies to get vessels to discharge in their docks has been so active that Dock Companies frequently pay for the towing of ships from Margate to Gravesend, and the Downs, to secure a preference for their respective docks. If those tonnage dues are not remunerative to the Dock Companies for towing ships, for the dock room they provide, and the expence incurred in discharging cargoes, the remedy appears to be in their own hands—to raise the tonnage dues on vessels enticed by such means into their docks. Instead of taking that course their object is, to make the consignees of goods pay for the accommodation afforded the ship, or to compel them to land and warehouse their goods in the docks.

The Dock Companies, the legal quays and the sufferance wharves, are all competitors in the trade of landing and warehousing goods within the Port of London.

The legal quays are about ten in number, all situate on the north or city side of the river Thames, and near the Custom-house. They are quays appointed under royal commissions, for the landing of foreign goods in pursuance of Acts of Parliament of the 1st of Queen Elizabeth, and of 13th and 14th of Charles the Second. The legal quays are further recognised and regulated by Acts of Parliament of the 9th and 10th V.c. cap. 399, and 10th and 11th vic. cap. 200. The legal quays are empowered to land and warehouse all foreign goods.

The foreign sufferance wharves are situate on both sides of the river. They are places permitted or suffered by the Commissioners of the Customs under the provisions of the Act of Charles the Second, to land and warehouse certain descriptions of foreign produce, and by Treasury minutes, they are authorised to land and warehouse all foreign goods except tea, tobacco, wine and spirits, and manufactured silk. The sufferance wharves on the south side of the river are regulated by an Act of Parliament of the 11th and 12th Victoria, Cap. 18.

Upon the legal quays, as well as the sufferance wharves, very large sums have recently been laid out for the purpose of increasing the accommodation of the port.

The charges of the legal quays and sufferance wharves are lower than those of the docks—the rivalry having reduced them considerably during the last ten years, to the great advantage of the mercantile community. The business too of the port in consequence of this competition is better and more expeditiously done than it used to be, and it is to stop this progress of private enterprise and competition that the Dock Companies want power from Parliament to levy black mail on all the goods which the merchants of London find it cheaper and more convenient to land and warehouse elsewhere.

For upwards of fifty years the trade between the docks and the wharfs has been free, and lighters, craft, and goods have been exempted from the payment of dock rates. Any repeal of these exemptions would establish a monopoly in favour of the Dock Companies of the profits of landing and warehousing all the goods in every ship entering the dock. All lightered goods exported in any vessel lying in the docks, and all goods imported in the same manner, would be liable to dock charges, so that a merchant or owner of goods would neither get his merchandise from the docks nor ship it on board any vessel lying in the docks, without paying dock charges.

When the Legislature enacted that the docks were to be to all intents and purposes legal quays, it was intended that they should participate in the rights and privileges of legal quays, but it was not declared that the docks were to possess any advantages or immunities detrimental to the legal quays or free trade in the port.

To remove all doubt on that part of the subject the Legislature introduced into the preamble of the St Katherine Dock Act of 1825, 6th George 4th, cap. 105, the following:—

"And whereas it is desirable that such docks, wharfs, quays, vaults, warehouses, and other places of deposit, should be situated as near as may be to the City of London, and established on the principle of free competition in trade, and without any exclusive privileges or immunities, &c."

Dock legislation has proceeded from the first Act of 1799, down to the present time, on the principle of free intercourse between one part of the Port of London and the other. By the extent of their accommodation, influence, and great resources, the Dock Companies of London practically possess a monopoly of the larger part of the trade of London. Not content with these advantages and others which might be mentioned, these establishments, by uniting together, are trying to extinguish entirely the competition now existing in the port. Should the Legislature grant what they ask, there would be an end of free trade in warehousing in the Port of London, and the Dock Companies, unchecked by private competition, would be able to raise their charges as they pleased, and the merchants of London would have no remedy.

By order of the Committee of the Legal Quays and Sufferance Wharfingers' Association.

GEORGE R. CORNER, Secretary.

19 Tooley street, Southwark, 7th December, 1854.

AUSTRALIA.—The following fine first-class ships will be quickly despatched:—

Ships.	Tns. Reg.	Captains.	Destination.
Oliver Van Noord	594	F. Guyt, jun.	Melbourne
General de Stuers (new ship).....	750	F. Fokkens	Sydney
Jenny Jones	485	H. T. Curry	Rio Janeiro

Lying in the London Docks.

For freight or passage apply to J. G. MARZETTI and SONS, Vine street, America square.

BRITISH AND NORTH AMERICAN MAIL ROYAL STEAM SHIPS, appointed by the Admiralty to sail between LIVERPOOL and BOSTON, calling at HALIFAX to land and receive passengers and Her Majesty's mails. The following or other vessels are appointed to sail from Liverpool:—

AMERICA, for BOSTON, Saturday, Dec. 9.
ASIA, for BOSTON, Saturday, Dec. 23.

Passage money, including steward's fee and provisions, but without wines or liquors, which can be obtained on board:—To Halifax and Boston, chief cabin, Twenty-five Guineas; second cabin, Fifteen Guineas. Dogs charged £5 each. Small parcels, 5s each and upwards, according to size.

For passage or other information, apply to J. B. Foord, 52 Old Broad street, London; S. Cunard Halifax; S. S Lewis, Boston; E. Cunard, New York; D. Currie, Havre, and 17 Boulevard des Italiens, Paris; G. and J. Burns, Buchanan street, Glasgow; or D. and C. M'Iver, Water street, Liverpool.

*** In consequence of several of the steam ships of the British and North American Royal Mail Company being required by the Government for the conveyance of troops to the East, the usual mail service between Great Britain and America will be disarranged. No steam ship of this line will leave Liverpool until the 9th December; on that day it is intended that the America shall sail for Halifax and Boston. After that date the communication will be every alternate Saturday, by way of Halifax and Boston.

MARSHALL & EDRIDGE'S LINE OF AUSTRALASIAN PACKET SHIPS.

The following First-class Ships, noted for their fast-sailing qualities, have most superior accommodations for passengers. Load in the London Dock, and will meet with immediate despatch:—

Ships.	Tons Register	Tons Burden.	Destination
Gipsy Queen	841	1100	Sydney
Washington Irving	881	1400	do.
Europa	943	120	do.
George Marshall	1361	2300	Port Phillip
Trynije Fenna	573	800	do.
Duke of Wellington	487	750	Adelaide
Hooghly.....	466	700	do.

For terms of freight or passage-money, dietary scales and further information, apply to the undersigned who are constantly dispatching a succession of superior first-class ships (regular traders) to each of the Australasian colonies.

MARSHALL and EDRIDGE, 34 Fenchurch street.

OVERLAND ROUTE.—STEAM to INDIA and CHINA, &c., via Egypt.—The PENINSULAR and ORIENTAL STEAM NAVIGATION COMPANY BOOK PASSENGERS and receive goods and parcels for the Mediterranean, Egypt, Aden, Bombay, Ceylon, Madras, and Calcutta, by their mail packets, leaving Southampton on the 4th and 20th of every month; and for China and the Straits by those of the 4th of the month.

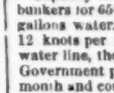
For further particulars apply at the Company's offices, 122 Leadenhall street, London; and Oriental place, Southampton.

SCREW STEAMERS FOR SALE.—Now being constructed by first-class builders and engineers on the Clyde, TWO SCREW STEAM SHIPS, of 2,306 and 2,156 tons O.M., with engines of 520 H.P., Admiralty rule. To be handsomely fitted up for 80 first and 100 second-class cabin passengers, and have steerage accommodation for 370—all in 'tween decks.

On top of spar deck, top gallant forecastle about 40 feet long, house amidships 70 feet, and round house aft 30 feet long—all fitted up for accommodation of captains, officers, engineers, stokers, and crew, with store and ice rooms, &c.

Capacity in hold for 1,600 tons of 40 cubic feet, and in bunkers for 650 tons coals; with tanks to contain 7,000 gallons water. Guaranteed speed, under steam alone, 12 knots per hour. The machinery being below load water line, these steamers are particularly well suited for Government purposes. One of them can be launched this month and completed in January, and the other in February next.—Apply to

PATRICK HENDERSON and CO., 4 Bothwell street, Glasgow, Dec. 1, 1854.



STEAM SHIPS.—The General Steam Navigation Company's powerful and first-class STEAM SHIPS leave from St Katharine's Wharf for—

HAMBURG every Wednesday, Friday, and Saturday morning. The TRIDENT, JOHN BULL, CALEDONIA, MOSELLE, DRAGON, or CITY OF HAMBURG. Chief cabin, £2; fore, £1 5s.

ROTTERDAM every Wednesday and Saturday morning at 10. CONCORDIA, RAINBOW, and RHINE. Chief cabin, £1 10s; fore, 17s 6d. Return £1 5s or 28s 6d.

ANTWERP, BRUSSELS, COLOGNE, and the RHINE.—The RAVENSBOURNE, every Thursday, at 11 morning. Chief cabin, £1s 7s; fore, 20s. Leaving Antwerp for London every Sunday at 11 morning.

OSTEND, BRUSSELS, and the RHINE.—The BELGIUM and PANTHER.—Every Wednesday and Saturday morning. Chief cabin, 18s; fore, 14s. Leaving Ostend for London every Tuesday and Friday night.

HAVRE, from St Katharine's Wharf—The PILOT, SOHO, or OCEAN, Dec. 16th, 15th, 20th, 24th, and 30th, morning. Chief cabin, 14s; fore, 10s. London to Paris, £1.

PARIS, via CALAIS, direct—From London bridge Wharf, every Thursday and Sunday mornings 10th at 5. TRITON. Chief cabin, 14s; fore 10s. London to Paris, £1 2s. Leaving Calais for London every Saturday and Wednesday night.

BOULOGNE—From London Bridge Wharf—SEINE, J. W. Pixley; and ALBION, H. Forss; every Wednesday, Friday, and Sunday morning. Dec. 10th at 4. Chief cabin, 14; fore, 10s. London to Paris, 22s. Leaving Boulogne for London every Tuesday and Friday evening.

EDINBURGH—From St Katharine's Wharf, adjoining the Tower, every Wednesday and Saturday evenings, at Ten. The CLARENCE, D. Turner; LEITH, J. Ferguson; TRIDENT, J. W. Morris. Leaving Granton Pier, Edinburgh, for London, the same days, at Four afternoon. Fares, chief cabin, 14s; fore, 8s.

HULL—From London bridge Wharf every Tuesday and Friday, at Eight morning. The WATERWITCH, J. Stranack, on Tuesdays, and the VIVID, C. Harty, Fridays. Chief cabin, 8s; fore, 5s. Leaving Hull for London every Tuesday and Saturday, according to tide.

NEWCASTLE—From Hore's Steam Wharf, Wapping. Dec. 2nd, 5th, 9th, 15th, 20th, 23rd, and 30th at Eight evening. NEWCASTLE, T. W. Green; and DENMARK, E. Harty; and PIONEER, D Godden. Chief cabin, 15s; fore, 10s: sailors on deck, 7s.

YARMOUTH—Reduced fares.—From London bridge Wharf—The HARLEQUIN, R. Dawson; and W. JOLLIFFE, H. Chessman, every Wednesday and Saturday, at Four afternoon; leaving Yarmouth for London on Wednesday, Saturday, and Sunday mornings. Saloon, 8s: second cabin, 5s.

RAMSGATE, MARGATE, and HERNE BAY—From London bridge Wharf—The MAGICIAN or PRINCE OF WALES, every Wednesday, and Saturday, at 9 morning, calling at Blackwall and Tilbury Piers.

Offices, 71 Lombard street, 37 Regent circus, 32 Leadenhall street, and St Katharine's Wharf.

NERVES.—DR GRANDISON'S PILLS, for strengthening the nerves, are sold in London by Mr Richards, 40 New Bridge street; Mr Sanger, 150 Oxford street; and other respectable chemists. Boxes can be sent by post.—Price 1s 1½d, 2s 9d, and 4s 6d each.

HANCOCK'S PATENT FLEXIBLE FLESH BRUSH BELTS and BRUSHES, the best flesh brushes that are used. Sold by J. Barrett, 89 Piccadilly, and 299 Oxford street; A. Barrett, 64 Piccadilly, and 186 Oxford street; Wallis, 368 Strand; Johnston, 68 Cornhill; and at the chemists. Manufactured by Eagles and Son, Walsall, the patentees.

52 FLEET STREET.—A NEW DISCOVERY IN TEETH.

MR HOWARD, SURGEON DENTIST, 52 Fleet street, has introduced an ENTIRELY NEW DESCRIPTION of ARTIFICIAL TEETH, fixed without springs, wires, or ligatures. They so perfectly resemble the natural teeth, as not to be distinguished from the originals by the closest observer; they will never change colour or decay, and will be found superior to any teeth ever before used. This method does not require the extraction of roots, or any painful operation, and will support and preserve teeth that are loose, and is guaranteed to restore articulation and mastication; and that Mr Howard's improvement may be within reach of the most economical, he has fixed his charges at the lowest scale possible. Decayed teeth rendered sound and useful in mastication. 52 Fleet street.—At home from 1 till 5

TEETH.—BY HER MAJESTY'S Royal Letters Patent.—Newly invented and patented application of chemically prepared WHITE INDIA RUBBER in the construction of ARTIFICIAL TEETH, Gums, and Palates.—Mr EPHRAIM MOSELY, Sole Inventor and Patentee. A new, original, and invaluable invention, consisting in the adaptation, with the most absolute perfection and success, of chemically prepared WHITE INDIA RUBBER as a lining to the ordinary gold or bone frame. The extraordinary results of this application may be noted in a few of their most prominent features:—All sharp edges are avoided, no springs, wires, or fastenings are required, a greatly increased freedom of suction is supplied, a natural elasticity hitherto unattainable, and a fit, perfected with the most unerring accuracy, is secured, while from the softness and flexibility of the agent employed, the greatest support is given to the adjoining teeth when loose, or rendered tender by the absorption of the gums.—To be obtained only at 61 Lower Grosvenor street, London; 22 Gay street, Bath; 10 Eldon square, Newcastle-on-Tyne

DEAFNESS!

DEAFNESS.—IMPORTANT DISCOVERY.—Dr MANFRED, M.R.C.S., has this day published, free by post for eight postage stamps, a Physician's Guide for Country Patients, for the Perfect and Permanent Restoration of Hearing, by his invaluable New Treatment. Being a stop to quackery, cruel impositions on the suffering public, and exorbitant charges; this book will save thousands from the impositions of the self-styled Doctors, inasmuch as the hearing can be restored for life. Deafness of the most inveterate nature relieved in half an hour, cured in a few hours, almost instant cessation of noises in the ears and head, by painless treatment. Hundreds of letters may be seen, and persons referred to, who have heard the usual tone of conversation in a few hours. Patients received daily at Dr MANFRED'S residence, 72 Regent street, London (first door in Air street), where all letters must be addressed.

KEATING'S COUGH LOZENGES A certain remedy for disorders of the Pulmonary Organs: in difficulty of Breathing—in redundancy of Phlegm—in incipient Consumption (of which Cough is the most positive indication), they are of unerring efficacy. In Asthma, and in Winter Cough, they have never been known to fail.

KEATING'S COUGH LOZENGES are free from every deleterious ingredient; they may, therefore, be taken at all times by the most delicate female and by the youngest child.

Sold in boxes, 1s 1½d, and tins, 2s 9d, 4s 6d, and 10s 6d each, by KEATING, No. 79 St Paul's churchyard. Sold retail by all Druggists, &c., &c

IMPORTANT TESTIMONIAL.

Letter from the late Colonel Hawker.

Longparish house, near Whitechurch, Hants, October 21st, 1846.

SIR—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your Lozenges. I had a cough for several weeks that defied all that had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or digestive organs.—I am, sir, your humble servant,

P. HAWKER.

To Mr Keating, 79 St Paul's Churchyard.

KEATING'S COD LIVER OIL, imported from Newfoundland, of the finest quality, pale, purified, and nearly tasteless. Half-pints, 2s; pints, 3s 6d; quarts, 6s 6d; five pint bottles, 15s, imperial measure.

*** Orders from the country should expressly state "KEATING'S COD LIVER OIL."

THE ONLY STOVE WITHOUT A FLUE.

JOYCE'S PATENT,

Plain, from 12s to 42s; Ornamental, from 31s 6d to 10 guineas.

For Warming Halls, Passages, Greenhouses, Waterclosets, Shops, Storerooms, and all places requiring artificial warmth. To be seen in use at the sole Proprietor's, S. NASH, Ironmonger, &c., 253 Oxford street, and at the City Depot, 119 Newgate street, London. PATENT PREPARED FUEL for the Stoves, 2s 6d per bushel; only genuine with the Proprietor's name and seal on the sack, S. NASH, 253 OXFORD STREET, and 119 NEWGATE STREET.

JOYCE'S PORTABLE LAUNDRY STOVE,

A small but most efficient little Stove, most especially useful in summer, when small fires only are wanted for domestic purposes: will heat and keep hot for use six flat and Italian irons, with perfect cleanliness, for 12 hours, with one pennyworth of coke or cinders. A saucepan or kettle may be placed on the top for culinary or other purposes.—PRICE 12s. *** Prospectuses, with Drawings and Report, forwarded free.

WHITE OXIDE OF ZINC AND ZINC PAINT.

(LANGSTON SCOTT'S PATENT.)

CROWLEY, WHITE, AND CROWLEY,

Sole Manufacturers in the United Kingdom.

This beautiful substitute for White Lead, of unrivalled colour and texture, may be obtained from most of the principal paint grinders, oil and colourmen, and ship chandlers in the United Kingdom, or direct from the Works, Grand Surrey Docks: (Wholesale under brand), either in the dry state or ground in oil.

Zinc Paint, being unchangeable in colour, stands pre-eminent for the highest purposes of art; and from its perfectly pure and innoxious qualities, is peculiarly applicable to first class decorations and house painting. For iron it possesses great affinity, and hence its preservative properties for that metal, whether employed for marine or other purposes. It is now ground in colours, and may be successfully employed on stucco, or any other outside work for which white lead is used; it sets harder, is consequently more durable, economical in first cost, and covers equal to any known pigment.

Price list and testimonials forwarded in answer to letters addressed to Messrs CROWLEY, WHITE, and CROWLEY, 39 King William street, City, London.

DR DE JONGH'S
LIGHT BROWN COD LIVER OIL.

prepared for Medicinal use in the Lofoden Isles, Norway, and put to the test of chemical analysis. Prescribed by eminent Medical Men as the most effectual remedy for CONSUMPTION, BRONCHITIS, ASTHMA, GOUT, RHEUMATISM, some DISEASES of the SKIN, RICKETS, INFANTINE WASTING, GENERAL DEBILITY, and all SCROFULOUS AFFECTIONS—effecting a cure or alleviating suffering much more rapidly than any other kind.

PURE AND UNADULTERATED.

The great difficulty of obtaining genuine and good Cod Liver Oil has long prevented a just appreciation of its acknowledged remedial virtues, and precluded many suffering invalids from realising the beneficial effects of this truly valuable medicine.

Dr De Jongh's Light Brown Cod Liver Oil is of the best kind and finest quality, being extracted from the liver of the Dorse—*Gadus Callarias*, a species of cod fish caught at the great fishery of the Loffoden Isles—by a process yielding a much larger proportion of iodine, phosphate of lime, volatile acid, the elements of the bile, and other essential principles, than the Pale Oils manufactured in England and Newfoundland, which, by their mode of preparation, are deprived in a great measure of their active elements.

The well-merited celebrity of Dr De Jongh's Oil is attested by its extensive use in France, Germany, Holland, Belgium, and Italy; by numerous spontaneous testimonials from eminent members of the faculty and scientific chemists of European reputation; and, since its recent introduction into this country, by the marked confidence as well as great success with which it has been prescribed by medical practitioners.

In many instances where other kinds of Cod Liver Oil had been taken with little or no benefit, it has produced almost immediate relief, arrested disease, and restored health.

Sold in London by ANSAR, HARFORD, and CO., 77 STRAND, Dr De Jongh's sole accredited Consignees and Agents for the United Kingdom and the British Possessions, and sent by them, Carriage Free, to all parts of town.

May be obtained, in the Country, from respectable Chemists and Vendors of Medicine. Should any difficulty be experienced in procuring the Oil, Messrs Ansar, Harford, and Co. will forward four half-pint bottles to any part of England, Carriage Paid, on receipt of a remittance of ten shillings.

Half-pints, 2s 6d; Pints, 4s 9d; Quarts, 9s.

IMPERIAL MEASURE.

*** The bottles are labelled with Dr De Jongh's stamp and signature, without which none are genuine.

ALLEN'S ILLUSTRATED CATALOGUE, containing size, price, and description of upwards of 100 articles, consisting of portmanteaus, travelling bags, ladies' portmanteaus, despatch boxes, writing desks, dressing cases, and other travelling requisites, forwarded on receipt of two stamps

ALLEN'S travelling bag (patented), has the opening as large as the bag itself, and therefore possesses an immense advantage over all others.

ALLEN'S registered despatch box and writing desk, and their new quadruple portmanteau (containing four compartments), are the best articles of the kind ever produced.

J. W. and T. ALLEN, manufacturers of portable furniture (see separate catalogue), and military outfitters 18 and 22 West Strand.

NO MORE PILLS OR ANY OTHER MEDICINE.—DU BARRY'S delicious REVALENTA ARABICA FOOD cures indigestion (dyspepsia), constipation, and diarrhœa, dysentery, nervousness, biliousness, liver complaints, flatulency, distension, acidity, heartburn, palpitation of the heart, nervous headache, deafness, noises in the head and ears, pains in almost every part of the body, tic douloureux, face ache, chronic inflammation, cancer, and ulceration of the stomach, pains at the pit of the stomach and between the shoulders, erysipelas, eruptions of the skin, biles and carbuncles, impurities and poverty of the blood, scrofula, cough, asthma, consumption, dropsy, rheumatism, gout, nausea and sickness during pregnancy, after eating, or at sea, low spirits, spasms, cramps, epileptic fits, spleen, general debility, inquietude, sleeplessness, involuntary blushing, paralysis, tremours, dislike to society, unfitness for study, loss of memory, delusions, vertigo, blood to the head, exhaustion, melancholy, groundless fear, indecision, wretchedness, thoughts of self-destruction, and many other complaints. It is, moreover, the best food for infants and invalids generally, as it never turns acid on the weakest stomach, nor interferes with a good liberal diet, but imparts a healthy relish for lunch and dinner, and restores the faculties of digestion and nervous and muscular energy to the most enfeebled.—Barry, Du Barry, and Co., 77 Regent-street, London. A few out of 50,000 cures are here given:—Cure No. 71, of dyspepsia, from the Right Hon. the Lord Stuart de Decies.—"I have derived considerable benefit from Du Barry's Revalenta Arabica Food, and consider it due to yourselves and the public to authorise the publication of these lines.—Stuart de Decies." Cure No. 49,832.—"Fifty years' indescribable agony from dyspepsia, nervousness, asthma, cough, constipation, flatulency, spasms, sickness at the stomach, and vomiting.—Maria Jolly, Wortham Ling, near Diss, Norfolk." Cure No. 47,121.—"Miss Elizabeth Jacobs, of Nazing Vicarage, Waltham Cross, Herts: a cure of extreme nervousness, indigestion, gatherings, low spirits, and nervous fancies. Cure No. 48,314.—"Miss Elizabeth Yeoman, Gateacre, near Liverpool: a cure of 10 years' dyspepsia and all the horrors of nervous irritability." Cure No. 3,506.—"Thirteen years' cough, indigestion, and general debility.—James Porter, Athol street, Perth."—Cure 52,422.—"Bridgehouse, Frimley, April 3, 1854.—I have suffered these 33 years continually from diseased lungs, spitting of blood, liver derangement, deafness, singing in the ears, constipation, debility, shortness of breath and cough, and, during that period, taken so much medicine that I can safely say I have laid out upwards of a thousand pounds at the chemists and doctors. I have actually worn out two medical men during my ailments without finding any improvement in my health. Indeed, I was in utter despair and never expected to get over it, when I was fortunate enough to become acquainted with your Revalenta Arabica, which, Heaven be praised, restored me to a state of health which I long since despaired of attaining. My lungs, liver, stomach, head, and ears, are all right, my hearing perfect, and my recovery is a marvel to all my acquaintance.—I am, respectfully, James Roberts." Cure 48,615.—"Plymouth, May 9th, 1851.—Ten years' dyspepsia, headaches, nervousness, low spirits, sleeplessness, and delusions.—J. S. Newton." Cure No. 180.—"Twenty-five years' nervousness, constipation, indigestion, and debility.—W. R. Reeves, Pool Anthony, Tiverton." No. 4,108.—"Eight years' dyspepsia, nervousness, debility with cramps, spasms, and nausea.—Rev. John W. Flavell, Ridlington Rectory, Norfolk." No. 81.—"Twenty years' liver complaints, with disorders of the stomach, bowels, and nerves.—Andrew Fraser, Haddington." No. 42,130.—"Major-General King, cure of general debility and nervousness." No. 32,110.—Captain Parker D. Bingham, R.N., who was cured of 27 years' dyspepsia in six weeks' time. Cure No. 28,416.—William Hunt, Esq., barrister-at-law, 60 years' partial paralysis. No. 32,814.—"Captain Allen, recording the cure of a lady from epileptic fits." No. 26,419.—The Rev. Charles Kerr, a cure of functional disorder. No. 24,814.—The Rev. Thomas Minster, cure of five years' nervousness, with spasms and daily vomitings. No. 47,617.—Dr James Shoiland, late surgeon in the 95th regiment, a cure of dropsy. No. 37,403.—Samuel Laxon, Esq., a cure of two years' diarrhœa. Mr William Martin, a cure of eight years' daily vomitings. Richard Willoughby, Esq., a cure of many years' biliousness. No. 32,836.—"Three years' excessive nervousness, with pains in my neck and left arm, and general debility.—Alex. Stuart, Archdeacon of Ross, Skibbereen." No. 58,034.—"Grammar School, Stevenage, Dec. 16, 1850.—Gentlemen, we have found it admirably adapted for infants. Our baby has never once had disordered bowels since taking it.—R. Ambler." No. 52,418.—Dr Gries, Magdeburg, recording the cure of his wife from pulmonary consumption, with night sweats and ulcerated lungs, which had resisted all medicines, and appeared a hopeless case. No. 52,421.—Dr Gastiker, Zurich: Cure of cancer of the stomach and fearfully distressing vomitings, habitual flatulency, and cholic. All the above parties will be happy to answer any inquiries. In canisters suitably packed for all climates, and with full instructions—1 lb, 2s 9d; 2 lbs, 4s 6d; 5 lbs, 11s; 12 lbs, 22s; super refined, 5 lbs, 22s; 10 lbs, 33s. The 10 lbs and 12 lbs carriage free, on receipt of post-office order. Barry, Du Barry, and Co., 77 Regent street, London; Fortnum, Mason, and Co., purveyors to Her Majesty, 181 Piccadilly; Dietrichsen and Hannay, 63 Oxford street; Barclay, Sanger, Sutton, Crosse and Blackwell; also at 60 Gracechurch street; 49 Bishopsgate street within; 4 Cheapside; 330 and 451 Strand; 68 Cornhill; 65 Charing cross; 34 Upper Baker street.
